Stolen Canadian Bank Notes

A package of \$5 bills of the Traders' Bank of Canada was stolen in transit between Ottawa and Toronto. These notes were in sheets (four to a sheet) and amounted to \$20,000. They are not exactly a counterfeit, but are bills printed from a new plate, but no genuine bills from this plate were put in circulation. They are easily distinguished from the genuine, viz., the genuine bill is green, while the stolen bills are what are known as multi-colored. The genuine bill has vignettes of the President and the General Manager on face of note. The forgery has a picture of the New Traders' Bank building on back which does not appear on the genuine. So far all forgeries have been countersigned "G. W. Michie." No person of that name has ever been authorized to countersign for the bank.

New Counterfeit \$20 Gold Certificate

CHECK LETTER B.

Series of 1906; check letter B; plate number o; W. T. Vernon, Register of the Treasury; Chas. H. Treat, Treasurer of the United States.

Photo-etched counterfeit. Two pieces of paper with silk threads between. Portrait of Washington fair. On the counterfeit before us the seal and Treasury numbers are red instead of yellow as in genuine, and the yellow "XX" on left end of note omitted, but in its place there are yellow figures which are much blurred, but apparently meant to be "20." Lathe work on face poor. Words "Act of July 12, 1882," face of note over check letter B, and "Series of 1906" in both places on note, heavy and irregular. Titles "Register of the Treasury" and "Treasurer of the United States," under Vernon's and Treat's names, broken and indistinct. Back very fair color, but no attempt has been made to imitate lathe work, etc.

Credit is due Mr. Geo. C. Rushmore, Receiving Teller of the Corn Exchange Bank, 28th Street branch, also Cashier Thomas Cook & Son, 245 Broadway, for the detection of this counterfeit.

New Counterfeit \$5 Silver Certificate (Indian Head)

CHECK LETTER M.

Series 1899; face plate number 687; J. W. Lyons, Register of the Treasury; Chas. H. Treat, Treasurer of the United States.

Photo-mechanical process, on fair quality of paper with fibre imitated by red and blue ink lines. In portrait of Indian, face appears too stout and more of a female face than the typical male; the eyes are very poorly portrayed; feathers and regalia poorly done. Numbering a trifle lighter and out of alignment. Seal and large numeral "5" lighter blue than genuine. The title "Register of the Treasury," under J. W. Lyons' name, poorly done, and period omitted after word "Treasury." The title "Treasurer of the United States," under Chas. H. Treat's name, also poorly done, none of the t's being crossed, and the period omitted after the word "States." The three periods in Chas. H. Treat's name omitted. Lathe work, both front and back, poorly done. Green color of back fair.

On the sample before us the fibre has been imitated by pen and ink marks. Others may not have these marks. The check letter M should enable anyone familiar with the system of check lettering Government issues to detect this note at once, as the Government issues bills with check letters A, B, C and D only, while National banks are liable to have any letter of the alphabet issued to them on their bills.

Credit is due Mr. George Shevlin, Receiving Teller People's Trust Co., Brooklyn, N. Y., for the detection of this counterfeit.

New Counterfeit \$2 Silver Certificate

Mr. John E. Wilkie, Chief of the Secret Service, reports a new counterfeit as follows:

Series of 1899; William T. Vernon, Register of the Treasury; Chas. H. Treat, Treasurer of the United States. Serial No. N35346254; no check letter.

This note is printed on a single piece of paper and is a pale photographic production which has been crudely colored so as to bear a very remote resemblance to a genuine note. The numbering looks as if it was put on with a sharp pointed stick. It ought not to deceive any one familiar with money, but the note before me was accepted after examination by several cashiers in the office of a corporation on the theory that it had gone through a laundry or had been subjected to bath in bleaching fluid.

New Counterfeit \$10 National Bank Note

CHECK LETTER C.

On the National Union Bank of Baltimore, Md. Series of 1875; John Allison, Register of the Treasury; John C. New, Treasurer of the United States; charter number 1480; bank number 1837; Treasury number B513072 on the specimen before us, but these numbers may be changed on other bills. This note is a pen and ink production of fair workmanship on parts of the note. The poorest parts are the title of the bank, viz., "The National Union Bank of Baltimore," the color and formation of the seal and numbering, while the lathe work and fine border work is untraceable. Back of note, the lettering at top and bottom of vignette is hardly readable. Paper of fair quality, but no fibre or imitation of it.

Credit is due Mr. W. L. Miltenberger, Cashier United States Safe Deposit and Savings Bank of New Orleans, La., for the detection of this counterfeit.

New Counterfeit \$10 National Bank Note

CHECK LETTER B.

Mr. John E. Wilkie, Chief of the Secret Service, reports a new counterfeit as follows: On the Germania National Bank of San Francisco, Cal. Series of 1902; J. W. Lyons,

Register of the Treasury; Ellis H. Roberts, Treasurer of the United States. Portrait of McKinley. Division "P"; charter number 6592; Treasury number N876546; bank number 1922. Dated January 16, 1903.

This is a straight photographic counterfeit, in which the divisional letter, the charter number and the Treasury number have been put on with a rubber stamp. The seal has been tinted, but shows plainly the black photographic imprint beneath. The back is a photographic print in dark blue. It is on two pieces of paper, with no attempt to imitate the distributed red and blue silk threads, and is of such character that it should immediately be detected on presentation. It was reported to this service by Mr. F. W. Seager, Assistant Cashier of the Sawtelle, Cal., branch of the Bank of Santa Monica. This bank is no longer in existence, having been absorbed after the San Francisco fire.

New Counterfeit \$5 Silver Certificate (Indian Head)

CHECK LETTER A.

Series 1899; check letter A; face plate number 609; J. W. Lyons, Register of the Treasury; Chas. H. Treat, Treasurer of the United States.

Photo-mechanical process, on fair quality of paper with fibre imitated by red and blue ink lines. In portrait of Indian, face appears too stout and more of a female face than the typical male; the eyes are very poorly portrayed, feathers and regalia poorly done. Numbering a trifle lighter and out of alignment. Seal and large numeral "5" lighter blue than genuine. The wording which appears over seal at right end is "Series of 1889" instead of "1899," as in genuine, but in lower left corner is correct and both are much blurred. The title "Register of the Treasury" under J. W. Lyons' name, poorly done, and period omitted after word "Treasury." The title "Treasurer of the United States," under Chas. H. Treat's name, also poorly done, none of the t's being crossed, and the period omitted after the word "States." The three periods in Chas. H. Treat's name omitted. Lathe work, both front and back, fairly done. Green color of back fair.

Credit is due Mr. Edward Henn, Paying Teller Jersey City Trust Co., Jersey City, N. J., for the detection of this counterfeit.

New Counterfeit \$5 United States Note

CHECK LETTER B.

Mr. John E. Wilkie, Chief of the Secret Service, reports a new counterfeit as follows:

Series 1907; check letter B; plate number blurred but looks like 217; W. T. Vernon, Register of the Treasury; Charles H. Treat, Treasurer; portrait of Jackson.

This is a poor photomechanical production upon a single piece of paper with no attempt to imitate silk threads. The lathework, front and back, and in fact all of the fine work on the note, is so blurred that it should attract immediate attention and should not deceive the ordinary careful handler of money.

This note was discovered in New York, and Assistant Teller Cornelius Outcault, of the Irving National Bank, is responsible for its detection.

New Counterfeit \$10 National Bank Note

CHECK LETTER G.

Mr. W. H. Moran, Acting Chief of the Secret Service, reports a new counterfeit as follows:

On the Citizens Central National Bank of New York, N. Y.; series of 1902; check letter G; J. W. Lyons, Register; Ellis H. Roberts, Treasurer; charter number 1290; bank number 17592; Treasury number A128250; portrait of William McKinley.

This counterfeit is apparently printed from lithograph plates on two pieces of paper between which silk threads have been distributed. The pink seal is excellent, both as to color and workmanship. The numbering is poor, the figures being irregular in size and alignment. The lathe work, particularly on back of note, is blurred and indistinct. This counterfeit is more than ordinarily deceptive.

The first one of these counterfeits was discovered by Mr. Henry J. Iles, Receiving Teller of the Borough Bank of Brooklyn.

Captain Flynn Scores Again

In the arrest of Giuseppe Clementi, a noted ex-convict, Secret Service agents say they have captured the leader of the band of counterfeiters which for the past few months has been flooding New York City and the vicinity with spurious \$5 bank notes. Since June 1, as shown by the records, over forty arrests have been made of men charged either with passing or selling these notes.

Capt. William J. Flynn, in command of the United States Secret Service in the New York district, declares that all of these counterfeits were supplied to the retail dealers by Clementi. Through the arrest of Clementi, Captain Flynn hopes to locate the plates from which the notes were printed.

More than \$5,000 worth of the spurious money has already been found within a radius of fifty miles of the New York City Hall, and it is estimated that at least twenty times that amount and probably more has been placed in circulation.

The notes are fairly well made and likely to deceive anyone not an expert. They are what is known as the five-dollar, legal tender, Jackson-head note, check letter B. In order to take away the appearance of newness the notes have been steeped in coffee.

Clementi had been watched by the Secret Service detectives for ten days. They located him in a tenement house on Cherry street, where he has been living with his brother Luigi and Salvatore Milano. It was a difficult matter to shadow Clementi, for whenever he left the house he was followed at a short distance by Milano, whose duty it was to see that his chief was in no danger. Milano was following Clementi through Cherry Street late at night when Captain Flynn and Agents Henry, Burke, Klinke and Rubano swooped down and arrested the pair simultaneously. Luigi Clementi was taken into custody at the Cherry Street house a few minutes later. Milano was the only one of the trio who had any of the counterfeit money in his possession.

Among Giuseppe Clementi's effects were found a loaded revolver and a clipping giving Burglar George Hunt's recent assay on safe blowing and a recipe for making a liquid explosive from dynamite. Captain Flynn did not make public his evidence against the prisoners when he arraigned them before United States Commissioner Gilchrist, but stated that he had sufficient to convict all three. The Commissioner held them for examination, fixing Giuseppe Clementi's bail at \$7,500 and that of the others at \$5,000 each.

Giuseppe Clementi was the leader of a band of counterfeiters, seven in number, captured by Captain Flynn seven years ago. At that time Clementi had a plant for making counterfeit coin in an old house on the outskirts of Hackensack, N. J. The

distributing point was in a tenement house on First Avenue, New York City, and in order to avert suspicion the counterfeits were brought over to New York in a market basket by an old woman named Anna Clementi, a near relative of the leader.

When the Hackensack house was raided several hundred dollars' worth of spurious dimes, quarters and halves were found buried in the cellar, all neatly wrapped in paraffine paper to keep the damp from tarnishing them. There were also found moulds and crucibles, a machine for milling the edges of the coins and a quantity of base metal used in their manufacture. Clementi has been only once convicted, but has been often arrested since his release from prison and was once placed on trial charged with attempting to rob a man after giving knockout drops. The evidence was insufficient.

BILLS NOT COUNTERFEIT.

Mr. H. W. Plummer, a capitalist of Oakland (Cal.), recently had a trying experience with the police of Oroville (Cal.). For a while he was in grave danger of being taken away to prison as a counterfeiter.

With E. A. McCully, of Oakland, he went to Oroville to inspect a timber claim near that city. He went to the Union Hotel and rose early to take the stage to the timber belt. Before leaving San Francisco he had obtained some new greenbacks and offered two of these in payment of his bill.

The clerk looked at the bills and became convinced that they were counterfeit and that he had detected two of the band who had been putting out bogus money in northern California. He had a water test all of his own to detect counterfeit greenbacks. It consisted of soaking the bills in water and sticking his finger through them. If the finger went through the bills were bogus. In a surreptitious manner he put the greenbacks through the test. They failed to stand it. He could punch holes in them without difficulty. His suspicions were verified.

He sent a hurry call to the police office and three men responded. He pointed out the two capitalists as counterfeiters, and the stern hand of the law was laid upon them. In vain they protested in language more forcible than polite. The damning evidence was in the clerk's possession.

Just as the policemen were ready to drag the two away to jail, Stage Driver Conley, who has known Mr. Plummer for 20 years, came in and recognized him. Mr. Plummer's troubles were not over, as it was not until Post Office Inspector J. I. Driscoll had been roused from sleep and brought down to pass upon the genuineness of the greenbacks that he was released.

Savings Deposits of National Banks

It will be recalled that some time ago, the Comptroller of the Currency requested the banks to report in a separate item their savings accounts. The result was surprising. Although it was well known that many National banks canvassed for such accounts, on which, of course, they pay interest, it was not realized that the total fund so accumulated had reached the proportions which the statements disclosed, says the Daily Banker and Stockholder.

Thus in the statement of April 28, 1909, the National banking system reported a total of \$378,028,000 classed as savings deposits. In the statement of June 23, the last official statement, this account shows only a slight growth of \$380,494,000. Some sections of the country, however, show a loss in these accounts. Thus in the Eastern States the item has fallen from \$178,865,000 to \$173,712,000. On the other hand, in New England, where there are regular savings banks of the highest type, the National banks have gained in savings deposits from \$31,643,000 to \$33,643,015. Massachusetts alone shows a gain of from \$7,841,000 to \$9,093,000. In no State are the savings banks more carefully supervised and restricted, and although the savings held by the National banks constitute only a slight proportion of the total savings of the State, the facts show that National bank resources are improvable by appeals to the savings bank class.

New York State, however, shows a decline in savings accounts and also a decline in the number of banks appealing for such business. The deposits show a loss of from \$41,668,000 in April to \$33,119,000 in June. The number of banks holding these accounts is reduced from 153 to 145. Just what was the cause operating here it is difficult to say; possibly it has been found unprofitable to keep up the canvass, or perhaps the illegality of advertising savings departments has been a discouraging factor. Another thing affecting this business has been the difficulty of earning enough to pay the comparatively high rates which are offered to attract these accounts.

Of the total number of National banks in the country June 23, namely, 6,926, only 2,161 carry on what are called savings departments. In April there were 2,196 such banks, so that there has been some shrinkage, the principal loss being in New York.

Probably the largest proportion of National banks carrying savings bank accounts, among the leading States, is found in Michigan. Here there are in operation 97 National banks, of which no less than 79 canvass for savings accounts. What effect the new statute will have on the business remains to be seen. Under the new law provision is made for the segregation of purely savings accounts and their special investment. Whether the depositors will take advantage of the increased

security thus theoretically afforded and put their savings in the State banks remains to be seen. The feeling is growing in many communities that savings banks of the Eastern type ought to be established so that the small accumulator need not subject his little capital to commercial risk. The danger is, of course, exaggerated. On the other hand, many business communities must depend for their banking resources so largely on purely savings accounts that to take these out of mercantile use without substituting other, would mean a serious business deprivation.

MICHIGAN STATE BANKERS' ASS'N.

H. G. Barnum, president of the First National Exchange Bank of Port Huron, was elected president of the Michigan State Bankers' Association, July 9, and in accordance with the custom prevailing with this organization, the home of the newly-chosen executive was named as the meeting place of the next annual convention. Other officers chosen were as follows:

First vice-president, Emory W. Clark, vice-president First National Bank, Detroit; second vice-president, C. J. Monroe, director of the Kalamazoo Savings Bank, Kalamazoo; treasurer, Willard F. Hopkins, vice-president of First National Bank of Alger County, Munising; secretary and attorney, Hal H. Smith of Detroit; members of the executive council, I. B. Unger, assistant to the president of the Old Detroit National Bank, Detroit; George G. Brown, cashier Cheboygan State Bank, Cheboygan; A. D. Bennett, president of the Commercial Bank, Port Huron; H. E. Harrison, cashier State Savings Bank, Vassar; D. B. K. VanRaalte, president Holland City State Bank, Holland; A. E. Sleeper, president State Savings Bank, Bad Axe; F. J. Hopkins, cashier City National Bank, Lansing.

After the adjournment of the State Bankers Convention those present who were members of the American Bankers' Association met and elected the following:

Member executive council of the American Bankers' Association, L. G. Kaufman, president First National Bank, Marquette; vice-president American Bankers' Association for Michigan, Henry Idema, president Kent State Bank, Grand Rapids.

Michigan bankers overwhelmingly oppose the enactment of a postal savings bank law.

They desire that banking laws and banking methods be so framed as to insure the safety of deposits and the confidence of depositors.

They agree with James B. Forgan, of Chicago, that the Fowler bill giving the comptroller of the currency enormous powers should not pass.

They oppose, though by no means unanimously, the guaranteeing of deposits.

Great Expansion of National Bank Loans

The National bank statement for June 23, 1909, shows loans and discounts of \$5,035,838,516, exhibiting an expansion in that item, compared with the statement of July 15, 1908, of no less than \$420,207,000. This is about the amount of increase which the system registered from June, 1906, to May, 1907. In the preceding period 1905 to 1906 the increase was \$307,720,000. These comparisons suggest that the year's expansion in the loan account is fully up to what we might expect in periods of active business. In this respect the loans of the National banks confirm recent improvements in the clearing records and railway earnings.

The immediate effect of the panic is not shown, but the National bank loans after touching \$4,678,583,000 Aug. 22, 1907, fell to \$4,585,337,000 on December 3, 1907, and then to \$4,222,353,000 February 14, 1908. From that depression the recovery was practically continuous, with an interval during which the loans apparently remained unchanged between November, 1908, and February, 1909.

To have this decided evidence of industrial recovery so soon after a panic tends to confirm the impression that although we may look for severe banking troubles the effect of these will extend over shorter terms. An examination of the bank loans covering the earlier panic period will suggest that there must have been much sounder conditions lying at the basis of the latter panic, than those prevailing in 1893.

It will be observed that it took about five years for the National banking system to recover the position which it held just previous to the great outbreak.

On the other hand, we have achieved a complete recovery so far as the bank loans are concerned within two years.

The country was certainly in better economic condition two years ago than in 1893. None of the theories of inflated conditions and excessive speculation have been proven true. Business enterprise was on a much more conservative basis than had been supposed and the warnings that the banks were granting favors too freely was quite meaningless. At least this is the way the facts rebuke the theories. In 1893 our farmers had already struggled with a number of bad years. The country's purchasing power was therefore deeply affected. It was a struggle for maintenance right up to the Spanish war. Enterprise was discouraged physically by the lack of means and morally by the presence of disturbing political movements, affecting the integrity of the monetary standards. Merely to state these things is to emphasize the much superior position in which we found our affairs at the outbreak of the panic of 1907 and since then.

The banks during the year increased their holdings of stocks and bonds other than United States bonds, from \$765,875,000 last year to \$877,050,000. This is a considerable expansion, but we must not attribute the whole of it to new investments. It should be noticed that during the year the holding of bonds pledged for government deposits declined from \$74,240,131 to \$26,812,632. As these were released to the banks they were restored to their position in the investment department, except, of course, where they had been borrowed originally. The statement of April 28, 1909, compared with July 15, 1908, shows this process better. While the pledged securities were reduced from \$74,240,171 to \$23,090,134 within the period named, the item bonds and securities rose from \$765,875,220 to \$865,796,668, just about \$100,000,000 increase against about \$50,000,000 decrease in the non-government bonds pledged with the Treasury for deposits.

The total reserve June 23, 1902, is 26.96 per cent. against 27.81 per cent. last year. There are now 6,826 National banks, against 6,824 a year ago.

An aggregate of \$380,494,598 in savings deposits in the National banks of the country is shown in the complete report just issued by the Controller of the Currency on the returns from National banks under the call for their condition on June 23. Of the 6,926 banks reporting, 2,161 showed savings deposits. In this list the Eastern States led with \$173,712,832, the Middle States next with \$109,931,124, the Southern States with \$44,048,395, and then, in order, New England with \$33,546,051, the Pacific States with \$14,848,464 and the rest of the West with \$14,848,463 and the island possessions (Hawaii and Porto Rico) with \$157,926. Hawaii has one National bank and Porto Rico one. Pennsylvania, with a total of \$96,203,678, leads all others in the aggregate savings deposits reported by the National banks.

The loans of the central reserve city banks, New York, Chicago and St. Louis, expanded \$169,488,000 from May 14, 1908, to June 23, 1909. The other reserve cities expanded \$172,792,000 in that period, and the country banks, \$165,256,000.

HELD AS COUNTERFEITERS.

Salvator Brandelone and his wife were arrested in their tenement at 419 East Eighteenth Street, New York City, by Secret Service agents, and taken before United States Commissioner Shields on a charge of counterfeiting. The Secret Service men seized a lot of molds and other apparatus for making silver quarters. The Commissioner held the pair in \$5,000 bail each for examination. Brandelone is said to have served time for counterfeiting before.

State Banks Expanding

Some of the statements of the State banks of various States calling for reports have recently been coming in, and the same story of banking expansion is told.

For example, take Michigan, where the loans and discounts on June 23 are shown to be \$12,628,024 greater than at the corresponding date a year ago. Since April 28 the 365 banks under the supervision of the banking department showed an increase in loans amounting to \$3,267,000. "As a result of the recent panic," says the report of the commissioner, "bank footings dropped to \$238,994,142.38 on February 14, 1908. Since this date, the enormous increase in total footings has been over \$20,000,000, of which \$15,700,000 occurred in savings deposits alone. The legal reserve of Michigan State banks on June 23 amounted to \$46,823,532.56, constituting a reserve of 21.1 per cent. of the total deposits, which were \$221,183,763.63. The cash reserve maintained by the Michigan State banks on that date was \$15,317,225.98, equaling a cash reserve of 6.9 per cent.

The 460 State banks of Wisconsin showed total loans and discounts of \$88,121,000 on June 23, which is an increase of \$1,636,000 over the report of April 28, 1909, and \$6,675,000 over the corresponding date a year ago.

In Minnesota there are 627 banks reporting to the banking department. These institutions showed loans and discounts of \$71,421,000 on June 23, 1909, compared with \$66,078,000 on May 6, 1908. Of course, some of this expansion is to be laid to the door of the new banks that have been organized during the year. But as these are mostly banks of the village type, allowing for their contribution to the loans will, nevertheless, leave a substantial margin.

There were 437 State banks doing business in Illinois on June 24, against 429 on April 29. The total resources of these banks on June 24 were \$627,663,536, an increase of \$27,731,533 in three months.

Turning to the South we find equally gratifying conditions. The State banks of South Carolina showed total loans and discounts on June 23 of \$40,113,000 compared with \$37,679,000 the year before.

COSTA RICAN LOAN TAKEN BY CITY BANK.

After negotiations with various banking firms in this city during the last two months, the Costa Rican loan of \$10,000,000 to \$12,000,000 has been arranged by the National City Bank through the firm of W. R. Grace & Co., who acted as intermediaries between the Costa Rican Government and the bank.

The contract was signed by the repre-

sentatives of the National City Bank and Jose Rehmoser, representing Costa Rica who has been in New York City since the beginning of May for the purpose of negotiating the loan. Mr. Rehmoser sailed from Boston July 23d on one of the United Fruit Company's steamships for San Jose, the capital of Costa Rica, via Port Limon with the contract which he will lay before the Chamber of Representatives of the Republic for its ratification.

It is understood that the agreement with the National City Bank covers the funding of all debts of Costa Rica, both internal and external, which are said to amount to over \$10,000,000. The time given in the contract is fifty years, and the rate of interest is 5 per cent.

It was said by a man who is familiar with the negotiations that had been carried on by the representative of the Costa Rican Government that the National City Bank was purchasing the bonds at 78.

This is the first time that the Republic of Costa Rica has come to the United States for a loan, all previous loans having been negotiated in England.

NEW ORLEANS DEPOSITS INCREASE

Published statements of fifteen State and National banks in the city of New Orleans, showing their condition at the close of business for the first six months of 1909, indicate a generally satisfactory condition of the banking houses. Aggregate resources of nearly \$97,000,000, with deposits of nearly \$75,000,000, are shown, as against \$95,000,000 resources and \$65,000,000 deposits of eighteen State and National banks which published statements July 1, 1908.

Of the fifteen banks publishing statements the Hibernia Bank and Trust Company leads with resources of \$18,104,324.08 and deposits of \$14,639,304.84. The Whitney-Central National is second with resources of \$16,967,612.46 and deposits of \$11,361,632.93, while the Commercial-Germania Trust and Savings Bank is third with \$12,501,342.58 resources and deposits of \$10,422,726.58.

BOGUS \$20 BILLS IN OHIO.

Chief Wilkie, in a letter sent to Cincinnati, Ohio, says a scheme has been unearthed by Federal inspectors which includes the transportation of bills in bulk packages from Cuba to America. He has begun negotiations with Secret Service men of that Government to break up the band. American inspectors will go to Cuba to aid the department there.

It was learned that many of the new bogus bills made in Cuba have been received at Cincinnati from places in Ohio, as well as several spurious dollars and half dollars.

Reduction of Interest Rate

At the Convention of the New York State Bankers' Association, at Saratoga Springs, July 15 and 16, Hon. Clark Williams, Superintendent of Banks of the State of New York, said in part:

"At the risk of incurring the displeasure of some who may consider my expressions of opinion as personal criticisms of their banking policy, and of others who may feel that enough has already been said upon the subject, I shall speak plainly of the interest rate. If I should not avail of every opportunity to do so I would feel the justice of the charge of neglect of my official duty.

"There is no question in my judgment which so vitally affects sound banking to-day, not only in this State, but throughout the country.

"Within the recent past, unfortunately, it was possible to assert that the greatest general offense to economic principles and sound banking throughout this State lay in the payment of excessively high interest rates on deposits, and your Association and the banking interests generally are to be congratulated that there is ample evidence of a change of policy in this regard; but this change in certain quarters is coming too slowly, and from expressions of reliable opinion, I fear that in some cases it may not come at all.

"As we well know, the practice is due largely to improper competition and a desire for large figures, in disregard of conservative, sound, paying banking. Invested capital is entitled to a reasonable return, and the banking community, yes, and posterity, can properly expect increasing strength in every institution having the people's money in its care, under either State or Federal supervision.

"Is it possible to earn a respectable dividend, to set aside a reasonable surplus, to pay your expenses, to maintain your legal reserve, and to pay interest at four per cent. on your money if you are doing a conservative loan and investment business? Honesty permits but one answer to this question.

"With due regard for soundness and surplus, there are a few that might safely pay even $4\frac{1}{2}$ per cent. There are others that could properly pay 4 per cent., but the greater number should pay but three and one-half per cent.

"The greatest offenders are among our National and State banks of deposit and discount, which pay these rates on daily or monthly balances in open account. The trust companies are offenders equally with the banks if these rates are paid on such accounts. The device commonly employed to announce the character of this business is the 'Interest Department.' The law prohibits to them the use of the word 'savings.' Can you tell me of a single

institution operating such a department in this State which could not use this word to describe its business if it were lawful to do so? Was it not the legislative intent to restrict this business for the protection of the public and to safeguard the institutions chartered to care for the savings of the provident poor? There might be justification for the existence of such 'Interest Departments' in institutions serving communities without savings bank facilities, but in such cases the segregation and proper investment of these funds should be required. If I were asked what thing embodied the greatest offense to the safe, conservative banker, without hesitation I should reply "That sign, 'Interest Department; 4 per cent. paid on deposits whether large or small.'"

"It seems to be the opinion in certain communities that coercion or concerted action is necessary for the general reduction of the interest rate. With this opinion I cannot agree. There are those in nearly every community who selfishly confine their vision to the four walls of the institution whose affairs they administer, and who are chronically opposed to general movements of the public good.

"I believe it to be the duty of the directors of every financial institution to determine for themselves, without coercion, the question of the interest rate to be paid on deposits; and as directors acting independently, there is but one question I would put to you. Will your institution be any stronger, or any cleaner, or any sounder, or in any way more properly profitable to your stockholders if you reduce your rate of interest? If you determine that your institution would be any stronger, any cleaner, any sounder, or any more properly profitable, then, gentlemen, it is your duty, and you should have the courage to adopt the more conservative course for the sake of the institution under your control and for the public good.

"I believe that evidence of such conservatism will appeal to your patrons and will result in advantages to every corporation adopting this policy.

"Gentlemen, my plea is for the strong surplus, and banking for quality rather than for quantity and that the effort should be not only to get the money, but to be sure you can pay it back.

"I feel sure that the members of your Association will join me in the hope that the day of high interest rates on deposits is coming to an end.

"Providence is blessing us with a period of prosperity, and it behooves us as good bankers in availing of our experience, to maintain our reputation for sound banking throughout the State of New York."

An Up-to-Date Bank

The Northampton Bank has moved to its new location, on the corner of Fourth and Northampton Streets, Easton, Pa., the building and equipment having been completed and turned over by the various contractors.

The work on the building was started April 1, 1908, and has progressed without interruption ever since. The building and its entire equipment are the most modern and up to date in the city. The building is erected of granite, brick and terra-cotta, with a steel frame, concrete floors, etc., and is entirely fire-proof.

The vault was installed by the Herring-Hall-Marvin Safe Company, of New York, and represents the highest achievement of mechanical genius, absolutely burglar-proof and fire-proof. The door is twelve inches in thickness and weighs over nine tons, and is adjusted on a Crane hinge, so that it can be swung with ease by a child. There is a quadruple time-lock movement on the door, so that it cannot be opened by any of the employees of the bank, before the next day, after it has once been closed at the end of the day's business.

Safe deposit boxes of the latest design have been installed, which, in connection with the ladies' and gents' coupon booths give the patrons, in this department, an accommodation that is, in itself, perfection.

A screen enclosing the working space is of Italian Pavonnazza marble and glass, and is a new departure and is different from anything in this locality.

There is a separate room for the use of ladies, where they have access to both receiving and paying tellers. In connection with the ladies' coupon rooms there is a ladies' dressing room for the accommodation of lady customers of the bank, which is another new feature for that city.

The directors' room is finished throughout with mahogany.

In addition to the vault above mentioned, there is a vault in the basement for the safe-keeping of trunks, silverware and other valuables.

The result of this work is: A bank building of pleasing and dignified appearance, a banking room complete in its appointments and details of convenience; the whole presenting a sense of useful and artistic completion that will endure.

The development of this institution has been remarkable. It has what no other bank in that locality has ever attained, a non-interest bearing deposit of over six times its capital, every dollar of which is payable on demand. It speaks well for the confidence in which such a bank is held by the public.

They have reached the enviable position on the "Roll of Honor" of National banks of the United States, and out of nearly

7,000 banks in operation under National charters stand among the first 200 on the list.

Few banks have so representative a board of directors as the Northampton National, which the following roster of the board will show: William Laubach, H. J. Boyer, Jonathan Moore, James Smith, W. J. Kuebler, Frank Wilson, W. S. Lawall, H. P. Kinsey, Horace Lehr, Thos. McCormick, E. J. Richards, Thos. C. Zulick.

These directors represent everything in the way of business.

President Richards is a thoroughly trained banker; he does not pretend to be anything else. His business, since he left college, has been banking; he has occupied every position in the bank from book-keeper to president. He was the first president of the Easton Clearing House, which position he still retains.

Vice-President Kuebler is a member of the well-known firm of W. Kuebler's Sons, brewers.

Cashier Neumeyer, like President Richards, is a seasoned banker, and few men of his comparative youth have had a larger and more varied experience. Mr. Neumeyer entered the bank when but fourteen, and has been with the institution twenty-six years, and has come up from the bottom.

U. S. MORTGAGE & TRUST.

The board of directors of the United States Mortgage & Trust Company recently declared a dividend of 12 per cent., thus placing the stock on a 24 per cent. dividend basis. The dividend heretofore has been on a basis of 20 per cent. per annum. The president in his report to the directors announced that the total deposits had increased during the last six months over \$10,000,000. The total deposits now amount to \$40,000,000. A number of promotions was also made in the official staff of the company. The list of officers as at present constituted is as follows: Cornelius C. Cuyler, president; John W. Platten, first vice-president; Calvert Brewer, vice-president; Carl G. Rasmus, vice-president; Frank J. Parsons, secretary; Joseph Adams, treasurer; Henry L. Servoss, assistant treasurer; T. W. B. Middleton, assistant secretary; Victor Ehrlicher, assistant secretary; Harry W. Hadley, assistant treasurer. Messrs. Brewer and Rasmus have heretofore occupied the positions of secretary and treasurer, respectively, while Messrs. Parsons and Adams were, respectively, assistant secretary and assistant treasurer. The new assistant secretary, Victor Ehrlicher, was formerly manager of the company's Seventy-third Street branch, and Harry W. Hadley, the new assistant treasurer, has long been associated with the company.

URGED TO TAKE OUT SMALL BILLS.

Comptroller of the Currency Murray on July 27 mailed a circular letter to the various National banks informing them of the intention of the Treasury Department to exchange \$1 silver certificates for silver certificates of larger denomination, that the banks may be better able to meet the demands incident to the crop movement period. The letter reads in part as follows:

"This pressing demand for small bills can be further relieved by the issue by National banks of approximately \$94,000,000 in five-dollar notes. Under the law the issue of notes of the denomination of five dollars is limited to one-third of the circulation of each bank, making the aggregate amount of five-dollar notes issuable \$220,000,000. Notes of this denomination outstanding at present amount to only \$126,000,000. The issue of these five-dollar notes would relieve the large demand for five-dollar silver certificates, and these being thus released could be exchanged for one-dollar bills. I deem it advisable to urge all National banks that have no five-dollar notes in circulation to unite with the Treasury Department in the effort to meet the coming demand for small notes and to place at once their orders with the Comptroller with a view to the preparation of the circulation at the earliest date possible. To banks having the maximum circulation of the larger denominations outstanding will be issued five-dollar notes to replace larger notes redeemed and destroyed up to the limit—namely, one-third of their total circulation. I trust that your bank will co-operate in this effort, and upon the belief that you will do so, a blank is inclosed for the submission of an order for a plate for the printing of notes of your association of the denomination of five dollars. The order for these plates will be made special, so that the notes may be ready for delivery when required. The cost of the additional plate for these notes will be \$75."

NEW YORK BANKERS' ASSOCIATION

At the annual election of officers of the New York State Bankers' Association on July 16, Ledyard Cogswell, president of the New York State National Bank, at Albany, was elected president of the Association. The vice-president is Luther W. Mott, vice-president of the First National Bank of Oswego. The new secretary is William J. Henry, who was assistant secretary of the Association. Mr. Henry is identified with the Irving National Exchange Bank, New York City. J. K. Kloefer, of the Bank of Hamburg, Hamburg, was elected treasurer. The delegates-at-large to the American Bankers' Association Convention are Charles Hoskins, of the Cayuga County National Bank, Auburn, and John Flynn, director of the Union National Bank of Troy.

BANISHING AMERICAN COINS.

It is understood that the Finance Department of Canada has approved of a plan submitted by the Canadian Bankers' Association to bar American silver coins from circulating in Canada. The work of collecting and deporting such money will be commenced immediately by the banks. It is estimated that in the western provinces of the Dominion at least one-half of the silver in circulation is of United States coinage, and the assistance given to the Government by the banks in replacing American silver with the silver coins of Canada by the increase in seigniorage, which is the profit derived by the Government on bullion brought to the mint, there to be coined, is considerable, and, of course, means a good thing for the country, although not to the banks themselves.

It is estimated that the American silver coinage now passing current in the Dominion, not taking the discount into consideration, is fully 40 per cent. of the total silver circulation of the country. About two years ago the Canadian banks arranged with the Government, which allowed them a small percentage for the service, to have American silver deported from Canada, but at the end of a year the Government grant expired, and the whole arrangement fell through. It is believed that the present plans will be permanent for sentimental as well as business reasons.

COUNTERFEITERS SENT UP.

William Shaw, convicted in the United States court of counterfeiting, was sentenced by Judge Swan to pay a fine of \$25 and to serve one year at hard labor in the Detroit House of Correction. William Kulp, the other Marshall man convicted of a similar offense, was given five years, while sentence was suspended on Peter Hansen, whom Secret Service Agent Gorman say was made the "goat" by Kulp and Shaw. William Peabody, the Detroit man convicted of counterfeiting, was remanded to jail.

NEW BANK FOR NEW YORK CITY.

It is rumored that plans are under way for the organization of a new State bank to be known as the Prudential Bank of the City of New York which will be located in the downtown district, somewhere south of City Hall and north of Beaver Street. The incorporators of the new institution will be William L. Moyer, Paul H. Sheridan, Clarence Foote, Fred H. Wowersock and Thomas Tileston.

HOME BANK OF CANADA.

An interesting showing of advancing development is that placed before shareholders at the last meeting of the Home Bank of Canada. A marked addition to the list of shareholders has been made, especially in the Western provinces. From 502 their number has gone up to 891 within a year. Additions have been made to paid capital, which is now over a million. The deposits have increased by \$972,000, making them not far from six millions. The profits of the year sufficed to pay six per cent. dividend and to add enough to the Reserve to make that fund equal to one-third the paid capital. The total assets show an increase of \$1,182,000 over last year and there is a slight increase in circulation. These are welcome features.

It is tolerably clear already that the extension of its business to the North-West has further popularized the Home Bank. It will likely have that effect still more in the future. Opportunities of business which could no longer be reasonably looked for in Ontario may be found in the larger field. The address of Mr. Kennedy indicates some of the directions in which such added business is to be looked for. The opening of additional branches of the bank continues. Four have been opened during the last twelve months, three of them in Manitoba and Saskatchewan.

Considering the large number of its depositors, it is the duty of the bank management to be solicitous about the nature of its assets. And indeed we believe their character is very generally satisfactory. Out of a total of almost eight millions, 18 per cent. are cash items; 28 per cent. bonds and call loans; 48.84 per cent. current loans and discounts. So that not far from one-half the total assets are in easily realizable form. The bank's directors are good and well-known business men, with a reputation for carefulness to maintain. It is pleasing, therefore, to find that the home-like character which the Home Bank sustains in Ontario is likely to be continued in the Canadian West. The institution must grow, one would think, with the growth of that great land.

IMPERIAL BANK OF CANADA.

The thirty-fourth annual report shows that after deducting charges of management and interest due depositors and making full provision for all bad and doubtful debts and for rebate on bills under discount, the Imperial Bank made

profits of \$743,524 during the year ended April 30th, 1909. This is a creditable sum and compares well with the figures for the same period of other institutions. The rest account is one of the strongest features of this bank's thirty-fourth annual statement, which was presented to the shareholders. The balance at the credit of that account last year was \$4,965,757. A sum of \$34,242, representing premium received on new capital stock, has been transferred to the reserve, which now amounts to \$5,000,000. Four quarterly dividends, at the rate of 11 per cent. per annum, accounted for \$549,539, while a sum of \$69,961 was written off bank premises and furniture account. The balance of profit and loss account carried forward was \$599,978. The result of the year's operations must appeal as eminently satisfactory to the directors, shareholders and to Mr. D. R. Wilkie, the general manager, and his staff.

The following directors were elected: Messrs. D. R. Wilkie, Hon. Robert Jaffray, Wm. Ramsay of Bowland, Stow. Scotland; Elias Rogers, J. Kerr Osborne Charles Cockshutt, Peleg Howland, Wm. Whyte (Winnipeg), Cawthra Mulock, Hon. Richard Turner (Quebec), Wm. Hamilton Merritt, M. D. (St. Catharines). At a subsequent meeting of the directors Mr. D. R. Wilkie was re-elected president, and the Hon. Robert Jaffray, vice-president, for the ensuing year.

ST. STEPHEN'S BANK.

The annual statement of St. Stephen's Bank of St. Stephen, New Brunswick, for the year ending April 30, 1909, shows assets amounting to \$796,789.95, of which \$26,062.42 is bank premises, other real estate and furniture and equipment. Current loans and discounts amount to \$635,284.16, while the amount of bonds, debentures, stock, notes and checks of other banks and debits due from foreign agents, totals \$95,927.40. Deposits with the Government and specie and dominion notes on hand total \$39,509.97.

The paid-up capital of the bank is \$200,000 and the reserve \$55,000. The deposits total \$334,970.53, and the notes in circulation amount to \$195,350. Undivided profits, unpaid dividends and debits to other banks and foreign agents make up the remainder of the liabilities. St. Stephen's Bank has no offices outside of St. Stephen, N.B. It works through the branches of the Bank of Montreal. The institution was incorporated in 1836. The officers are Mr. Frank Todd, president; Mr. John D. Chapin, vice-president; and Mr. J. T. Whitlock, cashier and secretary. These three together with Messrs. John G. Murchie and Philip Breen form the directorate.

Counterfeit National Bank Notes

The following is a complete list of all counterfeits on the National Banks that have been presented at the United States Treasury Department, and embraces all that are in circulation. National bank notes are divided into four classes, as follows: *First*, The old series, bearing the small star-pointed seal, and signed by F. E. Spinner as Treasurer. *Second*, The series of 1875, bearing the scalloped seal, and signed by John C. New, A. U. Wyman and Jas. Gilfillan as Treasurers. *Third*, The series of 1882, bearing the large seal (chocolate color), and signed by Jas. Gilfillan, A. U. Wyman and C. N. Jordan as Treasurers. *Fourth*, The series of 1902, bearing the scalloped seal and signed by Ellis H. Roberts and Charles H. Treat as Treasurers. All of these series have been counterfeited. All notes known as the old series (having the star-pointed seal) were printed on plain bank-note paper. The series of 1875, 1882 and 1902 are printed on fibre paper. The series of 1875 have the charter number printed in large bold-faced figures on each end of note. The series of 1882 have the charter number printed in large figures on the note, and engraved in small figures surrounding the face of note; back of note, the charter number is printed in large figures in green panel centre of note. The series of 1902 have the charter number printed in large red figures on each end of note and engraved in small figures in border surrounding the face of note, also one of the following letters in red near the charter number on each end of note: N, E, M, W, S or P, which denotes in which group of States the bank that issued the note is situated. N denotes a New England State, E an Eastern, M a Middle, W a Western, S a Southern, and P a Pacific State.

All notes have the check letters A, B, C, D, printed on the face of note in upper and lower corners, diagonally opposite. A few banks have been furnished with notes bearing other letters of the alphabet, of which F, G, M, R and U have been counterfeited.

Photographic notes are not dangerous, as no invention has been perfected by which the various colors on a note can be produced. When a genuine note is photographed, the colors upon the counterfeit, originally, appear in black, the numbers and seals on the notes being in colors. It has been necessary, in order to imitate them perfectly, to color by hand in various ways. On the first counterfeits that appeared of this class the work was done in a careless manner, the tints produced being of a bad color, the black underneath showing through. On many of the recent counterfeits, the tints of the seals and numbers are excellent, but as a general rule photographic counterfeits are not dangerous. This class of counterfeits bear different numbers, and the numbers cannot be relied upon as a means of detection.

ONES

DESCRIPTION OF GENUINE NOTE

On genuine centre of note, vignette representing two females clasping right hands before an altar, to convey the idea of the Union re-established over the altar of our country by the return of peace and the aid of heaven. Left end, large ornamental figure "1" across, on which are words "United States," etc. Back of note, vignette Landing of Pilgrims.
National Bank Notes of all denominations have on back of notes, left end, coat of arms of the State; right end, that of the United States.
No genuine notes of this denomination have been issued since June, 1879.

DESCRIPTION OF COUNTERFEIT

State.	City.	Bank.	Check Letter.	Date or Series.	Charter No. of Genuine.
Mass.	Boston	National Eagle	A	Series of 1875	993

FIVES

DESCRIPTION OF GENUINE NOTE

On genuine, left end of note, the vignette represents the discovery of the new land, Columbus being the principal figure of a group on the deck of the caravel; right end, Columbus introducing America to Europe, Asia and Africa. Back of note, Landing of Columbus in 1492. In June, 1882, a new design was adopted on the left end, being a beautiful portrait of the late President Garfield. Back of note, the charter number of bank printed in green panel, centre of note, surrounded by lathe-work. The series 1882 notes having brown border backs, while those prior to series 1882 had green border backs. The series of 1902 notes have the portrait of Benjamin Harrison on left side of face of note; the number panel with denomination counters at either end below portrait. On the back is a vignette, Landing of the Pilgrims, with legend and ornamental base, in centre of note.

DESCRIPTION OF GENUINE NOTE

On genuine, left end of note, vignette represents Franklin, with kite in hand, experimenting with electricity, with assistant seated on rock near him. Leyden jar in foreground and 1752 in lower left corner. Right end vignette represents female on eagle soaring above clouds snatching the lightning, to represent genius of America seizing and utilizing lightning of heaven. On counterfeit the post in vignette, lower left corner, was made perfect or plain; the genuine at one-fourth inch from the ground shows a knot hole or nick. Back of note, vignette represents De Soto discovering Mississippi in 1541. All notes of this denomination prior to series of 1882 had green border backs, and those of series 1882 have brown border backs, with charter number of bank in green panel, centre of note, in place of De Soto vignette. The series of 1902 has portrait of William McKinley on left side face of note. The number panel is below portrait, large denomination counter in upper right corner and smaller denomination counters in upper and lower left corners. On the back is vignette, Female figure, Navy and Merchant Marine. Legend with small denomination counter in center, base of note.

FIFTIES

DESCRIPTION OF GENUINE NOTE

On genuine, left end of note, vignette represents Gen. Washington crossing the Delaware; above is large "50," crowned by "FIFTY." Right end, vignette represents soldier of the Revolution of 1776 on picket duty; he sees in a vision future glory of his country, typified by Union of Liberty and Justice with Victory, represented by three females in mid-air, with "Victory" crowning whole. Back of note, vignette represents Embarkation of Pilgrims. All notes of this denomination prior to series of 1882 had green border backs; those of 1882 have brown border backs, with charter number of bank in green panel, surrounded with lathe-work, in place of vignette Embarkation of Pilgrims. The series of 1902 has portrait of John Sherman on left side, face of note, number panel below portrait. Large denomination counter in upper right and lower left corners; small denomination counter in lower right corner. On the back there is a vignette, Male figure, with denomination counter, lower left corner, and vignette, Female figure, Engine and Factory scene, right of note.

ONE HUNDREDS

DESCRIPTION OF GENUINE NOTE

On genuine note, left end vignette represents Commodore Perry leaving his flagship "Lawrence;" above is large ornamental "C" and "100." Right end vignette represents angel with coronet, on which is "Liberty," her hands extended towards fasces planted on rock, entwined by wreaths and belts, latter bearing "The" and "Union," at right, "maintain it" in burst of sunlight; whole designed to represent Genius of America invoking aid of heaven to maintain and preserve the Union; above vignette is "100" and "C." Back, vignette represents Declaration of American Independence, July 4, 1776. All notes prior to series of 1882 had green border backs; those of 1882 have brown border backs with charter number of bank in green panel, instead of vignette Declaration of American Independence. The series of 1902, on left side of face of note, has portrait of John J. Knox, with number panel below portrait. Large denomination counter in upper right and lower left corners; small denomination counter in lower right corner. On the back of the note is vignette, two Male figures, eagle, shield and flags in centre of note, with legend and vista of Capitol and Monument at base.

DESCRIPTION OF COUNTERFEITS

State.	City.	Bank.	Check Letter.	Date or Series.	Charter No. of Genuine.
Mass.	Boston	First National	A	Feb. 2, 1864.....	200
		On genuine, vignette, left end, water drops from both sides of bow oar; on counterfeit from only one side. Crossing of letter "T" omitted in "MAINTAIN" on right end of counterfeit. This defect is often mended by reprint, pen or pencil, but not so as to deceive close observers. On the genuine bills the sailor, standing in the bow of the boat, has a medium-sized head and face with a partly opened mouth; on counterfeits the same man has a large, broad head and face, a closed mouth, and broad, full forehead. On the back of the genuine bills the lettering of the several panels is properly punctuated. In the counterfeits the lower panel containing a quotation from the law against counterfeiting, on second line, after the word "IT" a comma is omitted, and after the word "PRINTED" on the fourth line in same panel.			
	Boston	National Revere	A	July 20, 1865.....	1295
		The genuine note has space of 1-16th of an inch between edge of wing of figure of Liberty and shading of letter "C" in upper right corner; on counterfeit about half the distance. On genuine, in vignette, left end, water drops from both sides of bow oar; on counterfeit but from one side. On genuine, distance between wing of figure of Liberty and foot of check-letter A is over 3-16ths of an inch; on counterfeit hardly 1/8 of an inch. On genuine a line drawn sharply under words, "with the U. S. Treasurer at Washington," if extended strikes the lower lip of figure of Liberty; on counterfeit it strikes the chin. Face of sailor in counterfeit, bow of boat, resembles a skeleton or death's head. On the back of the genuine bills, in the upper lettered panel, on the third line, right, the words "OTHER DEBTS" are properly spaced. In the counterfeit the "R" in "OTHER" joins the "D" in "DEBTS," and the "D" is raised above the letters preceding.

Instructive Guides

U. S. Notes of date 1862 and 1863 have no jute or fibre in the paper.

Series of 1869, 1874, 1875 or 1878 are printed on a distinctive fibre paper known as the Wilcox patent.

Series of 1880 are printed on paper having a red and blue silk thread running from end to end, one at the top and the other at the bottom of the note, and shreds of red and blue silk fibre scattered all through the paper, and known as the Crane patent. Then the scattered threads were discontinued, leaving only the parallel threads or one of them. Then, later on, was adopted the new kind of paper, having only the scattered threads localized in two bars, one across each end of bill.

The counterfeits of U. S. Notes, of dates 1862 and 1863, also some of Series 1875, bear the small red seal, pointed (old seal).

Counterfeit 50's and 500's of Series 1869, and some counterfeits of Series 1880 bear the large red seal, lathe work points.

Some 20's and 10's (1880) bear large red seal, plain border.

Few large chocolate seals, lathe work points, are counterfeited on any bills.

Very few National Bank bills bearing red pointed seal have any fibre in paper.

Series of 1875 (all of which have the red scalloped seal) are either printed on jute fibre paper, or the silk line paper, the same as used for the U. S. Notes, Series of 1880.

Series of 1882, bearing the brown scalloped seal, such are also printed on the same silk line paper as the U. S. Notes, Series of 1880.

The check-letters, A, B, C or D, referred to in the body of this DETECTOR, are all printed in *black* ink on the face of U. S. Notes and National Bank Bills, as well as on the Bills of the Dominion of Canada. Some U. S. National Banks have been supplied with other letters.

THE NUMBER SYSTEM.

All Government Notes—but not National Bank Bills—are printed of one denomination four on a sheet, and lettered respectively A, B, C or D. Each note also bears a Treasury number, and divide this number or only the last two figures of it by four, and if the remainder is one then the check letter should be A; if two remainder then B; if three remainder then C; and if no remainder then D. If the result shows otherwise then the numbering is wrong, and hence the bill is a counterfeit. Wrong numbering will detect a very large number of the counterfeits in circulation, but some counterfeits, however, are correct.

UNITED STATES NOTES AND CERTIFICATES.

The old issue of United States notes was divided into four series, all of which were signed by L. E. Chittenden as Register and F. E. Spinner as Treasurer. The series of 1869 were signed by John Allison as Register and F. E. Spinner as Treasurer. Of the series of 1875, numerous counterfeits have appeared, from the 1's to the 50's. Notes of this issue are signed by John Allison, Register, and John C. New, A. U. Wyman and Jas. Gilfillan as Treasurers. Of the series of 1878, but two denominations have been counterfeited, the 10's and 20's, and of the series of 1880, the 2's, 5's, 10's, 20's, 50's and 100's.

On both the United States notes and gold and silver certificates there are usually small engraved figures under the check letter. They represent the number of the plate from which the note is printed, and are used as a means of identification of the printers through whose hands the note passed. As many as 60 plates may be used at one time in printing notes of one denomination, and each plate has its own number. The small figures have been printed on all notes since 1862.

No gold certificates have been issued below the denomination of \$10. All certificates are issued and numbered the same as Treasury notes, and are check-lettered in their order on each sheet.

Only three denominations of gold certificates have been counterfeited, the 10's, 20's and 100's.

Six denominations of silver certificates have been counterfeited, the 1's, 2's, 5's, 10's, 20's and 100's.

All U. S. Treasury notes issued prior to 1869 were printed on plain bank note paper. All issued since, commencing with the series of 1869, are printed on fibre paper. Many of the old issues were counterfeited, as the paper used had no special distinctive feature, engraving being mainly relied on by the Government to prevent imitation. As numerous counterfeits appeared on the old issues, the Government was obliged to adopt, in 1869, a special paper, the distinctive feature of which was a narrow localized tint of short blue fibre running the entire length of the sheet in such a manner as not to lessen its strength or interfere with the printing. When examined under the microscope, these fibres have the appearance of coarse black hairs, of different lengths and shapes, scattered promiscuously, regardless of regularity, over the entire surface. This paper is known as the Wilcox patent. In 1878 another feature of fibre paper was adopted, somewhat similar, with two silk threads running lengthwise throughout the note. This is known as the Crane patent.

Series 90. Convertible note. Engraving coarse, but vignette head of Hamilton fair. Lathe work around large figure 5, right upper corner of note, defective. Lathe work on back of note also faulty.

Act of Feb. 25, 1862.
L. E. Chittenden, Register.

A

Series 114. Dated March 10, 1863.
F. E. Spinner, Treasurer.

Poor counterfeit. One of convertible series. All genuine notes of this issue dated March 10, 1862; counterfeits dated March 10, 1863. Head of Hamilton.

Act of March 3, 1863.
L. E. Chittenden, Register.

A D

Dated March 10, 1863.
F. E. Spinner, Treasurer.

New series, and new series 70. Inferior counterfeits. Engraving on face of notes very coarse; vignette statue of Liberty, left end, looks like a cheap wood engraving. Vignette head of Hamilton, right end, coarse, of very poor appearance, and not a likeness. Signature of L. E. Chittenden, Register, engraved in coarse lines, not a fac-simile of genuine. Numbering very poor. Imprint of American Bank Note Co. imperfect. Lathe work around figure 5 on counterfeit and on back of notes defective.

Act of March 2, 1863.
L. E. Chittenden, Register.

A D

Dated March 10, 1863.
F. E. Spinner, Treasurer.

New series 77. Fair counterfeit. Engraving on face of note coarse. Lathe work around figure 5, on counter, right upper corner of bill, very defective. Vignette of Hamilton, right lower corner, though poorly engraved, has a fair expression and likeness. Vignette Statue of Liberty, left end of bill, "scratchy" and unfinished in detail, lacking the cross lines in shading. About feet of statue a few rough lines alone appear, instead of sharply defined folds of drapery shown on genuine. Lathe work back of note faulty, lines not traceable in green tint.

Act of March 3, 1863.
L. E. Chittenden, Register.

A D

Dated March 10, 1863.
F. E. Spinner, Treasurer.

New series 77, and new series. Good counterfeits. Engraving well done; general appearance good. Lettering well engraved and shading regular, yet heavier than genuine. Lathe work around figure 5 on counter, right upper corner face of bill, appears good at first sight, yet when inspected is found to lack very fine continuous lines of genuine. Vignette of Hamilton almost as finely engraved as genuine and presents a very fair likeness. Vignette Statue of Liberty, left end, not so carefully finished; general features of statue and its drapery are discernible, but details are imperfect or wanting. On left hand of the figure (the side toward the body of the note) drapery below knee does not show ornamental ball-tassels as prominent as on genuine. Lathe work back of note defective.

Act of March 3, 1863.
John Allison, Register.

Series 19. Dated March 10, 1862.

F. E. Spinner, Treasurer.

Good. Treasury numbers imperfect, ink a brick red color. Portrait of Lincoln poor, unlike genuine. On genuine, line on upper side, under Treasury number, if extended, would strike below letter "N" in words "New Series;" on counterfeit it would strike higher up, near centre of "N."

Act of Feb. 25, 1862.
L. E. Chittenden, Register.

BCD

New Series 23. Dated March 10, 1862.

F. E. Spinner, Treasurer.

Excellent. Portrait of Lincoln slightly defective. Red figure trifle smaller than on genuine. Red ink blurred. Fine line under Treasury number, on genuine, if extended, would strike directly under the words "New Series." On counterfeit would strike near centre of the "N." Check letter D of this counterfeit is of "Act of March 3, 1863," dated "March 10, 1863," otherwise plate is same.

New Series 53. Dated March 10, 1863.
John C. New, Treasurer.

Dangerous. Portrait of Lincoln well engraved. Numbering well done, ink good. Lathe work surrounding 10's in green medallion, somewhat blurred and defective. There are nine counterfeits on this issue of 10's, and all notes of this denomination of the various series should be examined with care. There is also said to be a counterfeit \$10, check letter A, on Series 19 of this issue.

Act of March 3, 1863.
John Allison, Register.

C

Series 1875.
John C. New, Treasurer.

Good genuine notes printed on fibre paper. An attempt has been made to imitate the fibre by printing lines in panel on back. Portrait of Webster poor. Lathe work fair. Numbering poor. In line "This note is a legal tender for ten dollars," top of note, there are no spaces between words "a" and "legal," and "for" and "ten," in counterfeit. "W" and "D. C.," in "Washington, D. C.," in centre are larger. In counterfeit letters are of even size. On back, right panel, word "this" is printed "tms."

Act of March 3, 1863.
John Allison, Register.

C 8

Series 1880.
D. N. Morgan, Treasurer.

Fair. Most noticeable defects color of Treasury numbers, seal and vignette in lower right corner. Treasury numbers irregular in formation and darker blue than genuine. Small scalloped seal brick-red instead of carmine. Vignette of Columbus presenting America to Europe, Asia and Africa has blurred appearance; folds of coat on Columbus scarcely distinguishable; skirt of Indian girl, particularly fur border at bottom, very plain in genuine, cannot be seen in counterfeit, all being blurred. Lathe work and portrait of Webster good. Lettering has flat appearance, not standing out boldly. Two pieces of paper, between which silk fibre is placed, closely imitating the genuine, but surface is raised over fibre, and may be felt by rubbing the finger over it.

B. K. Bruce, Register.

D

Series 1880.
A. U. Wyman, Treasurer.

Photographic pen and ink counterfeit. General appearance good. Lathe work poor. Portrait of Webster and vignette well done. Imprint at top omitted. Words "Series of," over 1880, upper left corner, omitted, also words "Register of the Treasury" and "Treasurer of the United States," under signatures of B. K. Bruce and A. U. Wyman. Lathe work on back poor; green ink can be removed by moistening. Attempt to imitate fibre paper by printing blue and red lines lengthwise. Large brown spike seal. Several of these counterfeits have check letter D changed to L, and A. U. Wyman to James Gillfillan as Treasurer. No genuine U. S. note has check letter L, as the Government uses only four check letters on U. S. notes: A, B, C, D. Other letters appear on National Bank notes only.

Good counterfeit, excepting slight off-color of red seal, especially large red X with word "Ten" across it. Front and back printed on separate pieces of thin paper, having coarse silk fibre between and pasted together, which makes the bill stiffer than genuine; some bills lack fibre. Delicate lines too heavy. Bill lacks that nice, clean look, with contrast of light work and heavily shaded parts, of genuine. On close examination through a magnifying glass, the engraving of the two lines over large red X, AUTHORIZED BY THE LEGAL TENDER ACTS OF 1862 AND 1863, in counterfeit, appear heavy and letters broken and crooked, while in genuine they are even and clear. Words "Treasurer of the United States," under signature of Ellis H. Roberts, also a poor piece of work, capital "U" in "United" being broken. Below the large words "The United States of America" are horizontal or parallel lines, but such lack cross lines that should be there. The same applies also to background of portraits. Portraits of Lewis and Clark good, also the buffalo. Different numbers appear on different notes. Back of note looks well.

A 272

Series 1901.
Ellis H. Roberts, Treasurer.

Dangerous. Most noticeable defect is buffalo, centre of note, which has appearance of pen work, but is not. Portrait of Lewis unnatural, but that of Clark very good. Lettering good. Color Treasury numbers and seal good. Two pieces of paper of good quality, with silk threads between, which are coarse. Counterfeit has a period between "Washington" and "D. C.," instead of comma.

Legal Tender Acts of 1862 and 1863.
W. T. Vernon, Register.

A 461

Series 1901.
Chas. H. Treat, Treasurer.

Photo-mechanical production on two pieces of rather stiff paper with red and blue silk fibre between. Picture of buffalo and portraits of Clark and Lewis defective and in the masses of shadow lose detail. Denominational design, seal and numbering darker red than genuine. Back dark blue-green. Deceptive only when handled by persons unfamiliar with money.

Legal Tender Acts of 1862 and 1863.
J. W. Lyons, Register.

B

Series 1901.
Chas. H. Treat, Treasurer.

Good lithograph. Silk thread in imitation of fibre. Most noticeable defect is color of ink, which is gray-black instead of brilliant black. Color of numbers and seal good. Lettering of note well done, but portraits of Lewis and Clark and buffalo are scratchy, and do not stand out as clear as in the genuine. Back of buffalo appears as if sun was shining brightly upon it.

Legal Tender Acts of 1862 and 1863.
J. W. Lyons, Register.

B 202

Series 1901.
Ellis H. Roberts, Treasurer.

Dangerous. Lettering very good, lathe work only fair. Portraits of Lewis and Clark, while good, have not lifelike appearance of genuine. In female figure, right end of note, the navel is visible; on genuine it is not. Color of Treasury numbers brown-red instead of carmine-red, and figures not as heavy as genuine. Lathe work at first sight is good, but examination will show it is broken. Head of buffalo appears flat, while in genuine it is natural shape. Back of note good but off color, having a faded tinge. Contains silk fibre, but not as plentiful as the genuine. Note has wax or shiny appearance.

J. W. Lyons, Register.

C 86

Series 1901.
Ellis H. Roberts, Treasurer.

Dangerous. Good quality of paper; no silk fibre, nor imitation of it. Seal and numbers excellent and of good color. Buffalo well done. Large red X well done, but bottom part has dark or blurred appearance. Portraits of Lewis and Clark have not lifelike appearance of genuine. Shading under large words "United States of America," upper part of note, more of a solid black band than line work. Back of note not as well done, darker green than genuine; left arm of female figure not well outlined.

Legal Tender Acts of 1862 and 1863.

Fine at first sight, but will not bear close examination. No attempt to imitate lathe work. Portrait of Hamilton excellent, but background lacks fine lines; shaded with brush. Fibre paper imitated on back by pasting tissue paper over right panel, covering some material similar to genuine fibre. Ink can be removed by moistening. Pen and ink process. Other check letters than A, B, C, D on these counterfeits.

Act of March 3, 1863.
John Allison, Register.

Excellent. Photographic pen and ink process. Signed James Gilfillan, Treasurer. No genuine notes of this denomination and series were signed by him. Fine imprint at top of genuine, "Engraved and Printed in the Bureau of Engraving and Printing," directly under words "Legal Tender for Twenty Dollars," omitted. Lathe work and parallel ruling scratchy. Ink can be removed by moistening. Hamilton.

A 7

Series 1880.
D. N. Morgan, Treasurer.

Very dangerous. Printed from engraved plates. Most noticeable defects are in portrait of Hamilton; nose, instead of being round on end, is brought to a sharp point; chin, instead of being double, is square; head, from back of hair to tip of nose, on line of ear, is fraction of inch wider than genuine; work on coat gives flat effect and merges into background in lower part of portrait. In border small figures "20" omitted between XX (thus: X20X). In octagonal ornament under word "Washington," centre face of note, detail is so blurred that little eight-pointed star forming centre of ornament does not stand out in relief as in genuine. Paper of very deceptive character and has distributed fibre.

Act of March 3, 1863.

Series 1880.
A. U. Wyman, Treasurer.

Excellent. Description of three preceding counterfeit \$20 notes applies to this. These bear large round seal, large spiked seal, and also scalloped seal, all finely executed and of excellent color.

Other counterfeit notes of this series bear same check letters, and are signed W. S. Rosecrans, Register, and C. N. Jordan, J. N. Huston, Jas. W. Hyatt and E. H. Nebeker, Treasurer of the United States.

Several of these counterfeits have been seen with series 1880 changed to 1889, also to 1890. No genuine notes of this act and denomination bear portrait of Hamilton of series of 1889 or of 1890.

All genuine \$20 notes bearing portrait, Hamilton, this design, are of series of 1875, 1878 or 1880.

Inferior. One of "convertible" series. Engraving badly executed. Vignette head of Hamilton defective; nose of portrait runs to an unnatural sharp point and there is a peculiar "dish" to the countenance not seen in genuine. Numbering imperfect.

Dangerous. Engraving of portrait very good. Buttons on Hamilton's coat not as distinct as on genuine. In lower part of figure "0" in large counters "50" on each end of note a white line crosses that figure "0;" in counterfeit it does not. On back, in border, small 50's are inclosed in lines—octagonal—but on lower left end of note two of these octagonal forms lap.

Altered notes. Very dangerous. Made by raising genuine notes. By error, certain notes 2s and 50s bear same vignette head of Hamilton. On genuine fifties vignette head of Hamilton is at top of note; on the twos and raised note, it is at bottom. Vignette head of Hamilton has often been cut from genuine twos, the back removed and the face neatly cemented over the inferior work of poor counterfeit fifties, which were thus made passable.

One of the most dangerous counterfeits ever issued. Engraving excellent, numbering good, lathe work fair. On genuine, back of note, small 50's in border are surrounded by octagons; on counterfeit they are circles. Two of these circles on lower left end are run together, omitting cipher, which makes figures read 550. Description of New Series 1, preceding, applies to this note. Portrait of Hamilton.

Excellent pen and ink counterfeit. Words "Act of March 3, 1863," over portrait Benjamin Franklin omitted; also words "Series" over letter "N" in "United States," "Engraved and Printed at the Bureau Engraving and Printing," to left of portrait of Franklin. Color of seal excellent. Parallel silk threads run lengthwise in genuine notes, imitated by drawing fine blue lines and creasing note over lines.

Act of March 3, 1863.
J. Fount Tillman, Register.

C 17

Series 1880.
D. N. Morgan, Treasurer.

Dangerous. Portrait of Franklin very clear, except line of mouth and opening of ear, more pronounced. Small scalloped carmine-red seal closely resembles genuine. Words "Act of March 3, 1863," over portrait of Franklin, also name "Benjamin Franklin," under portrait, the words "Engraved and Printed Bureau Engraving and Printing," to left of portrait of Franklin, and word "Series" over letter "N" in "United States," are omitted on face. Penalty for "Counterfeiting" in panel left end back, words "Series of 1880" in panel in right end back and imprint "Bureau Engraving and Printing, Washington, D. C.," in centre lower border back, are omitted. Paper of good quality, and distributed red and blue silk fibre is cleverly imitated by red and blue ink lines. Other counterfeits are likely to appear, differing in number, seal and check letter, and bearing other signatures.

Series 1869.
F. E. Spinner, Treasurer.

One of most dangerous counterfeits in existence. Engraving and workmanship nearly equal to genuine. Lathe work excellent. Treasury numbers fair and color of ink good. Star on right of Treasury number blurred. Portrait of J. Q. Adams excellent, but lobe of ear is indistinct. In counterfeit, button upon coat, nearest lapel, almost square; in genuine it is round. Vignette of figure Justice finely engraved, except following: As scale is held aloft in left hand, upright holding beam is crooked, and is larger than in genuine; in genuine, upright shows only to lower part of hand, while in counterfeit it shows to second finger from base; white curve in arm is a perfect oval in genuine; in counterfeit it is not. Left foot of vignette, as it extends from garment, presents a clubbed appearance in counterfeit, while toes are short and not one-half length of genuine. Parallel ruling is excellent. Note is printed on fibre paper, signed "John Allison, Register," and "F. E. Spinner, Treasurer." Bankers and others should receive these notes with great care, as it is only by comparison with genuine that majority of experts can positively decide as to genuineness of a note of this class. Nearly all of this issue have been retired by Treasury, very few genuine notes now being in circulation. These notes should be received for collection only.

ONE THOUSANDS

Act of March 3, 1863.
L. E. Chittenden, Register.

A B C D

Dated March 10, 1862, and March 10, 1863.
F. E. Spinner, Treasurer.

Very dangerous. Engraving nearly equal to genuine. A mistake was made in genuine issue under this act, which counterfeiters copied, that of dating notes March 10, 1862, instead of 1863. This error was corrected in a subsequent issue of the genuine. On face of counterfeit lathe work in the border and on corner is much inferior to genuine. On left end of face, in border, words "Act of March 3, 1863," much coarser. Circles of 1,000 surrounding portrait of Morris much more irregular than in genuine. On counterfeit face of Morris is more front view. On genuine eyes cast more to left. Imprint "American Bank Note Co.," on right end of border is much narrower than on genuine. On back of note the four points at each end of note are much more pointed than on genuine. These differences were all noted by comparison with a genuine note of same date and check letter. Very few genuine notes of this denomination and issue are in circulation. Bankers and others are warned to handle these notes with great care.

ONES

- Act of July 14, 1890.
B. K. Bruce, Register. **B** Series 1891.
Engraving poor. Very small words scarcely decipherable. Stanton. Scalloped carmine seal off color. Ellis H. Roberts, Treasurer.
- Act of July 14, 1890.
B. K. Bruce, Register. **B** Series 1891.
Poor; two pieces of paper, pen lines in imitation of silk fibre. Stanton. Small carmine seal. Ellis H. Roberts, Treasurer.
- Act of July 14, 1890.
J. Fount Tillman, Register. **C** Series 1891.
Printed from etched plate; will not deceive ordinary handler of money. Portrait of Stanton. Lathe-work and small lettering badly executed. Has distributed fibre, but of poor quality. D. N. Morgan, Treasurer.

TWOS

- Act of July 14, 1890.
W. S. Rosecrans, Register. **A** Series 1890.
General appearance good. Most noticeable defect in portrait of McPherson, head being too broad and both eyes too large. Numbering poorly formed and a faded red color. Lathe-work on face good, on back very poor. Has the two parallel silks threads and large spiked chocolate seal. E. H. Nebeker, Treasurer.
- Act of July 14, 1890.
J. Fount Tillman, Register. **A** Series 1891.
A poor counterfeit. Portrait of McPherson very poor. Small scalloped seal. Printed on two pieces of paper, between which are miscellaneous silk threads. D. N. Morgan, Treasurer.
- Act of July 14, 1890.
W. S. Rosecrans, Register. **B** Series 1891.
Poor; printed from zinc-etched plate. Portrait of McPherson. Plate and notes captured. E. H. Nebeker, Treasurer.
- Act of July 14, 1890.
J. Fount Tillman, Register. **B 5** Series 1891.
General appearance excellent, except Treasury numbers, which are more of a brown-red than bright carmine-red of genuine. Portrait of General McPherson, while fairly well engraved, appears sunk in background. Geometric lathe-work and parallel ruling poorly executed. Red scalloped seal excellent in workmanship and color. Face and back evidently printed on separate pieces of paper and pasted together, with silk threads between. Quality of thread is very poor; paste caused color of thread to spread in paper, giving impression at first that fibre was imitated by pen and ink scratches. D. N. Morgan, Treasurer.
- Act of July 14, 1890.
J. Fount Tillman, Register. **B 33** Series 1891.
Poor. Portrait of McPherson too dark and lacks life-likeness; a white streak runs across iris of each eye. Seal dark red instead of light carmine. Numbers have been photographed on plate, and their dark outlines show beneath red ones; color of numbering too dark red, but otherwise good. Lathe-work on face has indistinct, worn look. Ink lines represent silk fibres. D. N. Morgan, Treasurer.
- Act of July 14, 1890.
W. S. Rosecrans, Register. **C** Series 1891.
Poor. Treasury numbers heavier and a darker blue than genuine. Portrait of McPherson appears much blurred. Paper poor quality, but has distributed silk fibre. E. H. Nebeker, Treasurer.
- Act of July 14, 1890.
J. Fount Tillman, Register. **C 32-34** Series 1891.
Not a good counterfeit. Printed from photo-etched plates, on soft fibrous paper, into the surface of which a few silk threads have been impressed. Portrait of McPherson lacks life-like appearance; hair and beard has not carefully brushed appearance in genuine. Heavy black lines represent eyebrows; right side of nose obscured by black ink splotch. Lathe-work poor. Small scalloped seal has faded appearance. D. N. Morgan, Treasurer.
- Act of July 14, 1890.
B. K. Bruce, Register. **D 4 B 4** Series 1891.
Most noticeable defect is in portrait of McPherson, which has a staring look, and head appears flat, while in genuine it stands out life-like. Seal dark red instead of bright carmine. Treasury number brick-red, and parallel ruling underneath very poorly imitated. Lathe-work also very poorly imitated. Paper much thinner than genuine, and silk fibre is closely imitated by red and blue pen and ink lines. Ellis H. Roberts, Treasurer.
- Act of July 14, 1890.
J. Fount Tillman, Register. **D 27 B 28** Series 1891.
Fair. McPherson portrait lacks life-like appearance; many white spots on face. Treasury numbers good. Seal lighter than genuine. Paper good quality; distributed fibre imitated with pen and ink lines. D. N. Morgan, Treasurer.
A second issue of this counterfeit has appeared bearing check-letter B and plate No. 28.
- Act of July 14, 1890.
J. Fount Tillman, Register. **D 38** Series 1891.
Poor. Portrait of McPherson and small scalloped seal; word "Bearer" in center face, under "America," spelled "Beurcr." Distributed silk fibre imitated by red ink pen scratches. D. N. Morgan, Treasurer.
A second issue of this counterfeit bears check-letter B and plate No. 4.
A third issue has appeared bearing signatures J. Fount Tillman, Register, and D. N. Morgan, Treasurer.

E. H. Nebeker, Treasurer.
Poor counterfeit. Small carmine-red seal. Portrait of General Thomas badly engraved.
A second issue of this counterfeit bears the signatures of J. Fount Tillman, Register, and D. N. Morgan, Treasurer. Distributed silk fibre imitated by red and blue ink lines.
- Act of July 14, 1890.
J. Fount Tillman, Register. **D** Series 1891.
D. N. Morgan, Treasurer.
Photographic, touched up with pen and brush. Gray background of photography plainly seen. Portrait of General Thomas; small scalloped seal. Distributed fibre imitated with blue and red ink lines.
- Act of July 14, 1890.
J. Fount Tillman, Register. **D 20** Series 1891.
D. N. Morgan, Treasurer.
Poor lithographic production, printed on heavy paper, with fibre imitated by ink lines. Bears portrait of Thomas and small scalloped seal. Imprint under signatures inclosed between parallel lines touching top and bottom of letters. A second issue contains silk thread.

TENS

- Act of July 14, 1890.
W. S. Rosecrans, Register. **B** Series 1890.
J. N. Huston, Treasurer.
Poor. Large chocolate spike seal; face has moth-eaten appearance; lathe-work very poor; star on epaulette of Gen. Sheridan four-pointed, should be five.

Poor counterfeit, printed from woodcut plates of crude workmanship. Portrait of Sheridan. Printed on two pieces paper, between which silk threads are distributed.
- Act of July 14, 1890.
J. Fount Tillman, Register. **B** Series 1891.
D. N. Morgan, Treasurer.
Photographic. In portrait of Sheridan right eye and mustache are hardly visible. Color of Treasury numbers and small scalloped seal maroon, instead of carmine-red.
- Act of July 14, 1890.
W. S. Rosecrans, Register. **B 2** Series 1891.
E. H. Nebeker, Treasurer.
Pen and ink counterfeit; portrait of Sheridan. Most noticeable defect in mustache and chin whiskers, which appear smoothly brushed, while in genuine they are straggling and bushy. Imprint "Bureau Engraving and Printing," left end face and back, missing; also words "This note is a legal tender," etc., etc., in centre panel back; in their stead is an X. Small scalloped carmine-red seal.
- Act of July 14, 1890.
J. Fount Tillman, Register. **C** Series 1891.
D. N. Morgan, Treasurer.
Poor photograph. Portrait of Sheridan. No attempt to color Treasury numbers, seal or back.
- Act of July 14, 1890.
J. Fount Tillman, Register. **C** Series 1891.
D. N. Morgan, Treasurer.
Apparently printed from photo-etched plate, on two pieces of paper, between which silk threads are distributed. So poor, detailed description unnecessary. Small scalloped seal. Portrait of Sheridan.
- Act of July 14, 1890.
J. Fount Tillman, Register. **C 18** Series 1891.
D. N. Morgan, Treasurer.
Good. Most noticeable defects in portrait of Sheridan, which does not stand out as in genuine; right end of forehead and right cheek in counterfeit a mass of white patches, while in genuine it is dotted lines, called stipple work. Lathe-work in upper left corner, surrounding letter X, very good, also lettering generally on face; lathe-work surrounding figure 10, in upper right corner, not so well done, lines broken and indistinct. Two pieces paper, between which silk threads are distributed to imitate fibre.

TWENTIES

- Act of July 14, 1890.
W. S. Rosecrans, Register. **A** Series 1890.
E. H. Nebeker, Treasurer.
Excellent photographic pen and ink counterfeit. Portrait Chief Justice Marshall appears broader than in genuine. Words "Series of 1890," under Treasury numbers, upper right corner, omitted; also imprint "Bureau Engraving and Printing," left of portrait. Small scalloped carmine-red seal, color closely resembles genuine. Parallel silk threads imitated by creasing and drawing lines over crease lengthwise of note. Notes of this issue and series are likely to appear differing in check-letter and seal.

Has washed appearance. Work on face almost perfect. Numbers black, should be blue. Large spiked seal purple color. Back a bluish cast in color, and poorly executed. Martha Washington.

Act of Aug. 4, 1886.
W. S. Rosecrans, Register.

D 1768

Series 1886.
James W. Hyatt, Treasurer.

General appearance fair; color of Treasury numbers good; ruling under Treasury numbers not strictly parallel; bust of Martha Washington has blurred look, white patches appearing on forehead and right side of face. In notch of key in counterfeit is letter **T**, while in genuine it takes the shape of **T**. Words "Treasurer of the United States" under signature James W. Hyatt, badly and irregularly printed. Entire face lighter than genuine. Back excellent. No parallel silk threads. Small round red seal.

Act of Aug. 4, 1886.
J. Fount Tillman, Register.

A 16

Series 1891.
D. N. Morgan, Treasurer.

Fair photo-etched plate. Bust of Martha Washington has blurred look. Treasury numbers of good color, but heavier faced than genuine. Small scalloped carmine-red seal good both in color and design. Back blurred and a darker green than genuine. Printed on distributed fibre paper, but of poor quality.

J. W. Lyons, Register.

C

Series 1899.
Ellis H. Roberts, Treasurer.

Rough photo-etched plates; two thin sheets of paper with ink lines on inside of sheets to imitate threads. Stars over eagle blurred. All lathe-work and portraits indistinct. Back of note dirty green; lathe-work very rough. Eagle and small portraits of Lincoln and Grant.

J. W. Lyons, Register.

D 1601 C 1661

Series 1899.
Ellis H. Roberts, Treasurer.

Poor. American eagle and small portraits of Lincoln and Grant indistinct and blurred. The figure "1" and scalloped seal in blue closely resemble soiled genuine notes. Two pieces of paper, fibre closely imitated with ink. Right end bears check-letter C, left end check-letter resembles a D upside down.

TWOS

(No check-letter.)

Poor; printed from wood-cut; no resemblance to any issue of silver certificates. Has spread eagle on right end, face, and two Indians on left end, one standing, other kneeling. Has square green back, with word "Silver" in white capitals in centre. Very crude.

Act of Aug. 4, 1886.
W. S. Rosecrans, Register.

A 1865

Series 1886.

Fair. Treasury numbers fairly printed, good color. Upper right, parallel lines, where Treasury numbers are printed, are omitted. Portrait of Hancock coarse. Small seal pink; paper has harsh feeling.

Act of Aug. 4, 1886.
W. S. Rosecrans, Register.

B 1863

Series 1886.
James W. Hyatt, Treasurer.

Large round spiked seal bright brick red, instead of dark red. Most noticeable defects in portrait of Gen. Hancock; no cross lines in left breast of coat in counterfeit, all lines being parallel. Treasury numbers very dark blue, instead of ultramarine blue. Figures in numbers vary in size. Geometrical lathe-work surrounding large figure 2 in upper right corner well executed. No attempt to imitate silk threads running lengthwise; some, however, are heavily creased in imitation of silk threads. A second issue of this counterfeit has large chocolate-colored spiked seal, and some notes have the silk threads imitated by red and blue lines.

Act of Aug. 4, 1886.
W. S. Rosecrans, Register.

C 1857

Series 1886.
James W. Hyatt, Treasurer.

General appearance very bad; vignette of Gen. Hancock exceptionally poor, background scratchy. In counter, upper right corner of face, containing figure "2," geometric lathe-work not discernible. Check letter "C," next to vignette of Hancock, indistinct, and omitted altogether on right end. Lathe-work on back very poor. Words "Bureau of Engraving and Printing," in small panel, lower centre of back, can hardly be deciphered. Small round red seal.

Dangerous. Treasury numbers well done, but figures not as heavy as genuine. Portrait of Gen. Hancock well engraved, also geometrical lathe-work and parallel ruling. In upper left and lower right corner in figure 2 of genuine is engraved in three places word "TWO." A good microscope shows that in ball of 2 letters "OWT" are engraved, but this defect would not be discovered except with powerful glass. Has small round carmine seal. Silk threads running lengthwise missing, but notes are heavily creased to imitate them. A second issue has appeared with silk threads actually running through paper.

D 2235

Series 1886.
James W. Hyatt, Treasurer.

Very dangerous. Check letter B, plate number 2235. Treasury numbers very good. Portrait of Gen. Hancock well engraved, but hair and mustache do not appear brushed as smooth as in genuine; star on right shoulder imperfect. Color of large spiked seal good, but a shade lighter than genuine. In upper left and lower right corner in figure 2 of genuine word "TWO" is engraved in three places. A good microscope shows that in ball of the 2 on counterfeit the letters "OWT" are engraved, but this defect is revealed only by a strong glass. In words "United," in "Treasurer of the United States," under signature of James W. Hyatt, "i" and "t" extend a little below other letters. Top of upper loop of "J" in "James W. Hyatt" is directly under letter "D" in "D. C." in counterfeit, while in genuine it comes between "D" and "C." This point, however, does not apply to counterfeit on B1863 and C1857, also bearing signature of James W. Hyatt. The silk fibre imitated by drawing fine blue lines through the body. Back is exceedingly well executed. A second issue has appeared with two parallel silk threads actually in the paper.

A third issue has appeared with error of word Two, mentioned above, corrected.

A fourth issue has appeared, differing from previous three issues only in that it has small carmine red seal.

A fifth issue has appeared, differing from previous four issues only in that it has large spiked chocolate-colored seal.

Dangerous. Most distinguished defect absence of pronounced white circles around pupils of eyes in portrait of William Windom. Roll of lapel of coat, left of portrait, less clearly depicted than in genuine. Treasury numbers a trifle brighter in color than genuine and not in line. Seal decided pink instead of bright carmine, blurred in appearance. Shading around head in Windom portrait heavier, and very heavy shading occurs over eyes and under nose and chin. Paper of excellent quality, has silk fibre, but thread slightly coarser and red silk darker than in genuine. Back almost perfect, but geometrical work somewhat blurred, in star around small "2" under large "2" on right, four half round shadings making points are scarcely perceptible, while very prominent in genuine.

Counterfeits bearing other Treasury numbers than above mentioned are in circulation, numbers being almost perfect and equal in size. Seal also closely resembles genuine in color.

Back of note, words "Silver Certificate" in upper border are missing, and on genuine note surrounding numeral "V" in centre are three lines of reading matter giving the status of the note, but on counterfeit only one line, and that illegible.  Good. Portrait "Onepapa." Most noticeable defect is the portrait, which appears much darker than and does not stand out nor have the life-like appearance of genuine. Color of seal, numeral "V" and word "FIVE" over the numeral in counterfeit lighter blue than genuine. Horizontal stroke in middle of stop at end of Treasury number, in counterfeit, is an elongated diamond in shape; in genuine, stroke is shaped like upper part of an exclamation point placed horizontally.  Photomechanical process. Paper fair; fibre imitated by red and blue ink lines. In portrait of Indian, face appears too stout and more of a female face than the typical male; eyes very poorly portrayed; feathers and regalia poorly done. Numbering a trifle lighter and out of alignment. Seal and large numeral "5" lighter blue than genuine. Wording over seal at right end is "Series of 1889" instead of "1899," as in genuine, but in lower left corner is correct and both are much blurred. The title "Register of the Treasury" under J. W. Lyons' name, poorly done, and period omitted after word "Treasury." The title "Treasurer of the United States," under Chas. H. Treat's name, also poorly done, none of the t's being crossed, and the period omitted after word "States." The three periods in Chas. H. Treat's name omitted. Lathe work, both front and back, fairly done. Green color of back fair.

 Dangerous photomechanical production. Printed on two pieces of paper, with distributed silk fibre between them in imitation of genuine. Face plate number 652; back plate number 493. Portrait of "Onepapa." Seal, denominational design, and serial number, all lighter than genuine in color. Word "treasurer," under signature of Roberts, badly printed and letters imperfectly formed. The fine cross-hatching in background of portrait of "Onepapa" is only suggested in counterfeit, where these lines appear coarse and badly broken. The lines forming shading of the blue denominational figure on left of note are thicker than genuine and much broken. On back of note the words "this certificate is receivable, etc.," very badly reproduced, lines broken and letters imperfectly formed. Word "five," back of note immediately to the right of the panel containing the words "United States of America," is very imperfectly reproduced. Shading under the words "United States of America" in counterfeit irregular in formation, with lines running all the way from dark shading to bottom of panel. Color of back nearly approximates that of genuine, being a trifle darker.

Photo-etched, on good paper with ink lines for silk threads. Does not have brilliant looking new inks and paper, but like an old bill has dull black and colored inks and a yellow-white paper. Blue ink too light. On head-gear of Indian is a mass of small dots, not like genuine, fine white feather work. Under large words "United States" there is not the band of solid black shading with further shading below it, but it is run together and irregular. Very dangerous. Face apparently a photographic platinum print. Face and back plate numbers indistinct or missing. General effect very closely approximates genuine. Color of seal, denominational design and numbers darker than genuine, seal being particularly bad and suggesting brush work. The last three letters of "bearer," the word "on" and the first two letters of "demand" in script, right face of note, appear to have been placed on with a pen or brush. Back of note deceptive, but blue-green and darker than genuine. Note is particularly deceptive from the fact that it is printed on genuine paper, obtained by bleaching a note of smaller denomination. In bleaching the note the color has been taken out of some of the distributed silk fibre lying close to the surface, but the deeply imbedded fibre is still visible in the paper, though the blue has been changed to a purple and the red somewhat lightened.

Dangerous photomechanical production. One piece of heavy bond paper of good quality. Portrait of "Onepapa." A defect in plate gives to Indian chief a cross-eyed expression. Blue seal closely approximates genuine in color but badly printed, being rough and coarse with many broken lines. Blue ink of seal and numbers lacks metallic gloss of genuine. In "stop" at right end of number (upper right face of note) small blue triangles which are so sharply defined and perfectly formed in genuine, are rounded at corners. This is true, but to a less extent, with reference to "stop" in number on lower left face of note. Back of note is a very deceptive piece of work, and except for being a little lighter, closely approximates genuine in color. No attempt to imitate distributed fibre. Back plate number 666.

Back plate number shadowy—probably 567; portrait of "Onepapa." Photo-mechanical production of a deceptive character except as to paper—two pieces pasted together with fibre between—which is stiff. Almost all the fine up-stroke lines in script lettering on face of note are lost, and in Indian's feather war bonnet the fine detail of feathers is wholly missing and there appears simply a blank space between lower and upper ends of feathers. General appearance good. Back blue-green in tint.

Fair. Photo-mechanical process. Back plate number 782. Face of note very heavy black, and that part of script lettering that crosses blue seal and denominational character has apparently been filled in by hand, and very poorly done. The "e" in "demand" not formed well. Second "e" in "bearer", instead of being loop "e", is like reverse figure "3." The "b" in "payable" looks more like an "l" than a "b." Fine hair lines forming a double line inside large figures "5", on both face and back, as well as letter "V" in centre back of note, missing. Top of large figure "5", upper left end of back, bulges upward instead of being concave, making it much thicker than genuine.

A very dangerous counterfeit. Most noticeable defect is in portrait. In genuine, Monroe represented as having pronounced cheek bones, one on left side of face being particularly prominent, while in counterfeit left cheek bone is missing, making face appear narrower than in genuine, and giving counterfeit different expression. In genuine right ear plainly parts hair, which is brushed upward in front and back of ear, while in counterfeit hair hides top of ear, and is not brushed upward. In name "James" under portrait letters "J" and "A" are not uniform with rest of letters, and bottom of "J" has more of upward loop than in genuine. Geometric lathe work, lettering, numbering and parallel ruling in panel in which Treasury numbers appear are almost equal to genuine, but a critical examination will show parallel lines to be somewhat broken, particularly in lower left border. Treasury numbers are almost perfect, both in color and formation, but the figure 5 in the Treasury number is different, the space within lower loop being oblong, up and down, instead of being round, and space below top line of 5 is too narrow. One of the best points is the top button of waistcoat; this counterfeit top button has lines on it up and down only, and they show well and distinct, while genuine top button alone is cross lined (lines up and down and crosswise also), but these lines are delicate, and by wear, bad printing, dirt, etc., they may thus be wanting or overlooked. Geometrical lathe work and lettering on back of note to the naked eye appears as good as genuine. Back plate No. 2.

Color of seal, denominational "X" and back all darker than genuine. Portrait of Hillegas is poorly executed. In upper-border design on face of genuine, under line "This certifies there have been deposited in the Treasury of the" there is an ornamental arc finished at each end by a scroll. In genuine this arc is about 1-16th of an inch wide, is marked by a series of distinct and regular perpendicular lines. In counterfeit this arc looks as if it had been executed with a pen, is blurred and scratched, and individuality of perpendicular lines almost disappears. General effect of back, aside from the darker color, better than face, but close inspection discloses work so inferior that it cannot be mistaken as genuine.

A good counterfeit. Bears the Treasury numbers C424363 and C324369, and no doubt bear other numbers. The color of these numbers is good, but not the bright ultramarine blue of the genuine. The portrait of Benton does not stand out in bold relief and lifelikeness as does the genuine. The lathe work surrounding the denomination 100 in upper right of note is flat, broken and has blurred appearance. Lettering on note good, except imprint under signatures of Lyons and Roberts, which is poor. Color of the word "GOLD" on face of note is unlike that on genuine, and color of the back, instead of the bronze-yellow on the genuine, the counterfeit is a light salmon color. Counterfeit has the silk distributed fibre imitated cleverly with pen and ink scratches, and by holding note between the light and the eyes the absence of silk fibre will be noted. On genuine in script line at top of note in the word "deposited" the "i" is distinctly dotted; in counterfeit it is not.

While we speak of the color of the yellow (gold) ink on the gold certificates being off color, etc., it is a fact that the Government so far has been unable to procure an ink that will stand climatic changes, etc.

Counterfeits of Interest-Bearing Notes and Bonds

\$10 Compound Interest Treasury Note. Letter C. Act of June 30, 1864—October 15th, 1864. Signed S. B. Colby, Register, and F. E. Spinner, Treasurer. Number 198380. Photograph of the brownish color of old fading photographic work. Figure of woman. Vignette of Chase.

\$50 Compound Interest Treasury Note. Check Letter D. Date, December, 1864. Act June 30, 1864. Signed S. B. Colby, Register, and F. E. Spinner, Treasurer. A poor counterfeit. Portrait of Hamilton.

\$50 Compound Interest Treasury Note. Series 1865. Letter D. Date May 15, 1865. Act June 30, 1864. Plates captured July, 1866.

\$50 Series 1865. Letter C. Date July 15, 1865. Act March 3, 1865. Signed S. B. Colby, Register, and F. E. Spinner, Treasurer. Eagle vignette. Interest 7-30, and notes convertible after three years into 5-20 bonds. Plates captured in April, 1866.

\$100 The words "Compound Interest Treasury Note" appear lengthwise of face of note and printed in big gold letters. The note is Series 1865; check-letter B; date May 15, 1865; act June 30, 1864; payable three years from date; and signed S. B. Colby, Register, and F. E. Spinner, Treasurer. The portrait of Washington and the vignette on the left end of note are both good work, the counterfeit plate having been engraved by Charles H. Smith, as he confessed, while the back of note is a genuine impression or from an electrotpe plate taken from a stolen impression of the genuine plate. The red numbers, however, are off color, and the figures uneven; and the large "U" in "United States" quite touches the outside line of the medallion in the upper left corner of the face of note; and the last "S" in "States" is distant not 1-16 of an inch from the outside line of the right corner medallion, while in genuine it is about 1-8 of an inch.

\$1000 United States Coupon Bonds. Series of 1861. Acts of July 17, 1861, and August 5, 1861. Mature June 30, 1881 (Sixes of 1881). Portrait of Chase. Exceedingly dangerous counterfeits. Those seen bear only coupons maturing January 1, 1881. On counterfeit, in the \$1000 counter, on nine sections, on each side of portrait of Chase, in the section to the left of the lower half of "1" in "1000," the letter "S" in "State" is entire, while on genuine only the upper half of the "S" is seen. The hair line around portrait on counterfeit shows a break of 1-16 of an inch, but the genuine does not, it is to the right of letter "S" in "Register's." Counterfeit differs from genuine in the mitering of the four corners of the green border. In title "United States of America" in the ruled shade on left side of bottom spur of letter "U" on counterfeit are seven very short lines forming very slight shade under that part of the letter—on genuine are ten lines, each about 1-16 of an inch long and forming a shade of same width as that at the bottom of the letter. Engraved signature at lower right hand of counterfeit and printed in grayish colored ink, is traced over with pen and ink—signature on genuine is written.

\$1000 7-30 Bonds. Letter B. Dated June 15, 1865. Act of March 3, 1865. Signed S. B. Colby, Register, and F. E. Spinner, Treasurer. Very dangerous counterfeit. Bonds matured and interest ceased. The Treasury Department redeemed many of them from Jay Cooke & Co. before the bonds were discovered to be counterfeit. The Department redeemed \$90,000 of the bogus bonds. Charles H. Smith stated that he engraved the plates.

\$1000 5-20 Coupon Bonds of 1862. Consols of 1867. Fourth series; act February 25, 1862; date May 1, 1862. One of the best specimens of counterfeit work that was ever made. It is believed that no printing was ever done from the plates. They were not quite completed when captured on November 21, 1867.

The Different Methods of Counterfeiting Coin

Coins of all kinds and denominations have been counterfeited. The most dangerous counterfeits are those struck from a die, and are usually imitations of gold coins. Molds of various kinds are extensively used in counterfeiting, but counterfeits so made are much inferior to those made with a die. They have a fine appearance, lettering and milling being sharp and clear, and the ring usually good, in some instances almost perfect fac similes of genuine. They are usually a trifle short weight, however, and the edges or reeding not so sharp and clear as in genuine. Many of these coins are full weight. In counterfeits made from a mold, lettering, milling and reeding are usually poor, weight very defective, the coins lack the sharp and clear-cut appearance of genuine coin. Most counterfeit silver coins in circulation are made from molds, as it is an inexpensive form of counterfeiting. Some fair specimens have been produced in this way, but usually they are much lighter than the genuine, and if of required weight, differ in diameter or thickness.

Various metals are used by counterfeiters, principally platinum, silver, copper, brass, antimony, aluminum, zinc, type metal, lead and their numerous compositions.

Among the most dangerous counterfeits of gold coin are those of a composition of gold, silver and copper. They are a low grade gold, and the acid test shows they lack the fineness of standard gold used by the U. S. Mint, which is 900 fine, or 21.19 carats. These counterfeits average from 400 to 800 fine. Platinum counterfeits are dangerous, as the metal used gives required weight, and they are heavily gold-plated. When they have been in circulation for a time the plating wears off, especially on the edges.

The most dangerous counterfeit of silver coin is made of a composition of antimony and lead, the former metal predominating. These counterfeits are of the dollar, have a fine appearance, are heavily silver-plated, with fair ring; some are only slightly below the standard weight. Some pieces among the smaller coins are made of brass, struck from a die, and when heavily plated are fair imitations. They lack required weight, except in a few instances. Counterfeits of type metal, lead and other compositions are much lighter than genuine, those having required weight are much too thick.

Genuine coins of all kinds, for the sake of gain, are tampered with in various ways. These operations are confined almost exclusively to gold coins, which are sweated, plugged and filled.

Sweating is removing a portion of the gold from surface of coin. The process does not interfere with the ring, and as portion removed is generally slight, the coin is left with a very fair appearance, weight only being defective. The principal methods of sweating are the acid bath, filing the edges or reeding, the operator finding a profit in the small quantities of gold removed from numerous pieces. The average reduction in value of coins subjected to these processes is from 1-20 to 1-10.

Plugging is done by boring holes in the coin, extracting the gold, and filling cavity with a cheaper material. The larger coins—double eagles and eagles (\$20 and \$10 pieces)—are used for this purpose. Holes are bored into the coin from the edge or reeding, the gold extracted and cavity filled with a base metal. The small surface of the plugging material, where it shows on the edge of the coin, is covered with gold and reeding retouched with a file or machine. The average loss in value to coins treated in this way is from one-eighth to one-sixth. Coins of this kind are very dangerous, as they are perfect in appearance, the edges only having been tampered with.

Filling is most commonly done by sawing the coin through from the edge or reeding, removing the interior portion, and replacing it with a cheap metal. Coins of all denominations, from quarter eagle to double eagle, are subjected to the process. When platinum is used to replace gold extracted, the coin has same weight as genuine. By this process coins lose four-fifths of their value, as the original surfaces are left only of paper thickness. When edges have been covered with gold and reeding restored, the coin has the appearance of being genuine, having correct size and weight, and a fair ring. Sometimes the covering of gold on edges is so thin that filling can be distinctly seen. When other and less costly filling than platinum is used, coins are of light weight and have a bad ring. If of correct weight they are too thick. Another method of filling is sawing the coin partly in two from edge or reeding on one side, leaving a thin and thick portion. The thin side of the coin is turned back and the gold extracted from centre of thicker portion. The cavity is filled with base metal and sides pressed back into original position and soldered or brazed together. It is difficult to give average loss to coins treated in this manner as hardly any two seen have same amount of gold taken from them.

For detecting counterfeit coin, compare impress, size, weight, ring and general appearance with genuine coin of same period and coinage. The three tests of *weight, diameter and thickness should be applied, for it is almost impossible for the counterfeiter to comply with these three tests without using genuine metal.* Following we give a complete list and a thorough description of the most dangerous counterfeits known to be in existence, with means of their detection.

Counterfeit Gold Coin

DOUBLE EAGLE—\$20.

Authorized to be coined by Act of March 3, 1849. Weight of genuine Double Eagle is 516 grains, is 900 fine, and 21.19 carats.

- 1850.—Weighs 360 grains; fineness gold, 571; silver, 85; copper, 344, and 13.22 carats; value \$8.83. Lighter in appearance, and thicker than genuine. Reeding and milling defective.
- 1851.—Weighs 473 grains, or 43 grains light. Color is bad; reeding and milling defective. Portrait of head of Liberty smaller than genuine. Bears no mint mark. Is struck from a die.
- 1873.—Fair counterfeit, made of type metal, gold plated. Weight 372 grains, being 144 grains light.
- 1880.—Composed of type metal, gold plated, and exceedingly light, weighing about 235 grains—220 grains light. Ring defective. Reeding and milling poorly done.
- 1884.—Has a fair appearance; mint mark S. Color not good; diameter larger than genuine. Milling and reeding fair. Several grains lighter than genuine.

EAGLE—\$10.

Authorized to be coined by Act of April 2, 1792. Weight of genuine Eagle is 258 grains, 900 fine, and 21.19 carats.

- 1841.—Weighs 236 grains, has O mint mark, and is 22 grains light. Coins struck from this die have fine appearance, main defects in reeding and milling.
- 1847.—Weighs 252 grains, has O mint mark, exceedingly dangerous, only 6 grains lighter and trifle thicker than genuine; reeding and milling slightly defective.
- 1849.—Weighs 228 grains, being 30 grains light, composed of gold, silver and copper. Has fair appearance, but is trifle thicker than genuine.
- 1852.—Composed of gold, copper and brass, weighs 181½ grains, or 76½ grains light. Ring is bad. Reeding and milling defective.
- 1855.—Composed of platinum; weighs 265 grains, or 7 grains heavier than genuine; has a fine appearance. Ring defective, diameter trifle greater than genuine. As these coins are gilded, or gold plated, slight wear removes plating from edges, and exposes platinum, or white metal underneath. Other coins of this date have been seen, weighing more than above described coin.
- 1858.—Very dangerous. Composed of platinum, and heavily gold plated. Milling and reeding fairly executed. Diameter, thickness and weight same as genuine. When coin is worn platinum shows distinctly on edges. Ring excellent.
- 1861.—New counterfeit composed of aluminum, heavily gold plated, weighs 154 grains, or 104 grains light; readily detected by general appearance and extreme lightness.
- 1865.—Dangerous. New Orleans mint letter O. Gold fineness is 494; weight .44 of an ounce, giving value 4.49. Contains small proportion of silver, alloy being entirely copper. Mint at New Orleans not opened at that date.
- 1871.—New counterfeit, weighs 186 grains, or 72 grains light, imperfect ring. Milling and reeding poor. Point of arrow in left claw of eagle touches letter "A" in "America," and olive branch touches letter "U" in word "United." Mint letter S touches right claw of eagle.
- 1875.) These counterfeits composed of aluminum, heavily gold plated; weigh 145 grains,
1879.) or 113 grains light. They bear the S mint mark, have good appearance, but are
1880.) easily detected owing to light weight.
- 1881.)
1883.) Composed of gold, copper and brass. Made in a mold. Impression exceedingly
1891.) poor, particularly of reverse. Weighs 197 grains, or 61 grains light. The reeding
1893.) and milling very defective.
1899.)
- 1882.—Dangerous counterfeit. Composed of gold, silver and brass. Struck from a die. Weighs 192 grains, or 66 grains light. Value about \$3.60. Reeding, milling and ring very good.
- 1882.—Made in a mold of base metal and plated.
- 1891.)
1893.) Composed of brass and heavily gold plated. Weighs 134½ grains, or 123½ grains
1895.) light. Obverse finely struck. Reeding and milling well executed. Ring good.
- 1904.—Good counterfeit. Light weight. Off color.

HALF EAGLE—\$5.

Authorized to be coined by Act of April 2, 1792. Weight of genuine Half Eagle 129 grains, 900 fine, 21.19 carats.

- 1800.—Of old coinage, poor, weighs but 81 grains; genuine of this date weighs 135 grains.
- 1803.—Same description as the above, weighs but 83 grains, being 52 grains light.

- 1821.—Larger in diameter, and thicker than genuine. Head of Liberty, chin very long; letter "U" in "United States" reversed. Eight grains light, value about one-half.
- 1838.—Excellent; weight, 125 grains; fineness, 547; trifle thicker than genuine; milling and reeding imperfect; value, \$2.70.
1837. } These counterfeits are made in a mold, and are mainly composed of brass and
1839. } copper. Obverse and reverse extremely poor. Weight is from 75 to 95 grains,
1843. } easily detected.
1844. }
- 1844.—Very dangerous, made of platinum, heavily gold plated; diameter, thickness and weight same as genuine. Ring excellent. When worn platinum shows through plating, especially on edges.
- 1844.—Very dangerous. Assay gave following results: One-tenth grain light; specific gravity, 15.9; thickness, about like genuine; fineness, gold 805½, silver 23; value gold, \$4.47, say \$4.50; resists acid tests almost as well as genuine; reeding faulty, but very fair; color very good, a trifle yellowish.
- 1845.—Good; weighs 113 grains, composed of gold, brass and copper. Specific gravity, 12.80; should be 17.20. Valued, upon being assayed at mint, at \$3.30.
- 1845.—Dangerous; 780 fine, trifle off color, little thicker than genuine. Composed of gold and brass. Upon being assayed value proved to be \$4.25.
1847. } Very dangerous; exact size and weight of genuine. Composed of platinum,
1848. } heavily gold plated. Ring, milling and reeding slightly imperfect.
- 1851.—Weighs 125 grains, 4 grains light. Composed of gold, silver and copper; thicker than genuine; reeding and milling defective.
- 1853.—Weighs 121 grains; specific gravity, 14; fineness, 630. Has brassy appearance; reeding and milling imperfect. Assay value, \$3.28.
- 1855.—Weighs 122 grains, 7 grains light. Imperfect ring; thicker than the genuine.
- 1855.—In all respects similar to preceding, except it weighs 131 grains.
- 1856.—Dangerous; weight and thickness almost identical with genuine; diameter trifle greater. Milling and reeding defective.
- 1857.—Is 450 fine; trifle thicker than genuine; same appearance as coins of 1851, 1855 and 1858. Assay value, \$3.28.
- 1858.—Weighs 115 grains, 14 grains light. Supposed to have been struck from same dies as two preceding ones, 1851 and 1855, dates having been changed. Excellent appearance. Very good counterfeit, but trifle thicker than genuine.
- 1860.—Excellent; S mint mark; weighs 125 grains; 790 fine; has coppery appearance; reeding very good; milling defective; value, \$4.30.
- 1861.—Cast in a mold; made in imitation of coinage of Philadelphia mint. Plating thin, weight light, but a well-cast piece.
1862. } These are dangerous counterfeits; weight and thickness same as genuine. Coin
1869. } struck from a die; general appearance excellent. Composed of platinum, heavily gold plated; diameter trifle greater than genuine. When plating is worn, platinum shows distinctly on edges.
- 1872.—Dangerous; diameter larger than genuine; 850 fine; trifle off color; ring defective, reeding imperfect. Value, \$4.43.
1875.) Weighs 122 grains, 7 grains light; composed of gold, silver and copper; fineness,
1877.) 600. Good appearance; diameter a little larger than genuine; trifle thicker.
- 1880.—Mainly copper, gold plated; good appearance; thicker than genuine; too light. Yields promptly to acid test.
- 1881.—Weighs 75 grains; made in a mold. Poor, not likely to deceive.
1881. } One of most dangerous counterfeits of this denomination known to be in exist-
1882. } ence. Assay of U. S. mint shows; fineness in gold, 798; silver, 38; copper, 153; platinum, 11; value, \$4.48. Specific gravity, 16; should be 17.20. Weight, 128 7-10 grains, about 3-10 of a grain light, which, allowing for abrasion, was within limits of genuine coin. Stained slightly with acid, thicker than genuine. Evidently struck from die prepared from a drop process, most dangerous of all processes in hands of counterfeiters.
- 1882.—Made in a mold of base metal and plated.
1885. } Imitation of coinage of Philadelphia mint. Said to have been struck in a die;
1886. } good appearance, but light weight.
- 1886.—Fair; very light, weighing about 75 grains; bears S mint mark.
- 1896.—Fair; made in a mold. Weight about 59 grains. Words "In God We Trust" indistinct.
- 1898.—Fair, made in a mold. Weight about 75 grains.
- 1899.—Good. Weighs 74½ grains. Made of Babbitt metal, gold plated.
- 1900.—Weighs 76 grains. Made in a mold. Not likely to deceive.

THREE-DOLLAR PIECE—\$3.

Authorized to be coined, Act of February 21, 1853. Weight, 77.4 grains; fineness, 900. Deviation in weight allowed in coinage, .25 of a grain. Deviation in fineness allowed in assay, .001; lowest, .899; highest, .901. Coinage commenced, 1854. Coinage discontinued, Act of September 26, 1890. Total amount coined, \$1,619,376.

COUNTERFEITS OF THE THREE-DOLLAR PIECE.

The coinage of three-dollar pieces has been, as may be noted, quite limited, yet this denomination of gold coin has been considerably counterfeited, the false coin being struck in a die from base metal, and so perfectly executed as to be dangerous. In color this counterfeit is a close imitation of standard gold, and a careful comparison of the general appearance and device of the false piece with that of the genuine coin is necessary to detect the difference between them. Genuine three-dollar pieces are sometimes swedged with fraudulent intent between plates of copper until of the diameter of the half eagle, when, the device and general appearance of the pieces being well preserved, they are placed in rolls among half eagles, and, unless detected, pass for five dollars.

QUARTER EAGLE—\$2.50.

Authorized to be coined by Act of April 2, 1792, and coinage discontinued by Act of September 26, 1890. Weight of genuine Quarter Eagle, 64.5 grains; fineness, 900, and 21.19 carats.

- 1843.—Weighs 40 grains and is $24\frac{1}{2}$ grains lighter than the genuine.
 1843.—Weighs 43 grains and is $21\frac{1}{2}$ grains light.
 1844.—Weighs 41 grains and is $23\frac{1}{2}$ grains light.
 1846.—Weighs 48 grains and is $16\frac{1}{2}$ grains light.
 1849.—Weighs 45 grains and is $19\frac{1}{2}$ grains light.
 1851.—Dangerous, only about 3 grains light.
 1852.—Weighs 40 grains, being $24\frac{1}{2}$ grains light.
 1852.—Most dangerous counterfeit of this denomination discovered. Contains only 27 cents worth gold; weight and size correct. Cannot be detected by acid test.
 1853.—A well-made counterfeit, mostly brass, and heavily gold plated.
 1854.—Weighs 33 grains, being $31\frac{1}{2}$ grains light.
 1855.—Is 5 grains light
 1856.—Is 26 grains light.
 1857.—Is 26 grains light.
 1857.—Dangerous. Is exact weight of genuine, but trifle thicker and larger in diameter.
 1858. } Composed of brass. Reeding and milling good. Trifle too thick. Lettering fair
 1860. } on one side, poor on other.
 1861.—Weighs 42 grains, and is $22\frac{1}{2}$ grains light.

All above quarter eagles made in mold, composition mostly brass, and heavily plated. Reeding and milling poor, readily detected by light weight.

- 1862.—Composed of platinum; weighs 64 grains; exceedingly dangerous. Heavily gold plated, detected only by observing edge of coin, when plating is worn, shows platinum underneath.

DOLLARS—LARGE AND SMALL.

Authorized to be coined by Act of March 3, 1849. Weight of genuine dollar is 25.8 grains, fineness 900, and 21.19 carats.

SOUVENIR GOLD DOLLAR.

Authorized by Act of June 28, 1902. Weight, 25.8 grains; fineness, 900. These two gold dollars—one Jefferson head and one McKinley head—sold for \$3 each, and were coined for the Louisiana Purchase Exposition or World's Fair, held at St. Louis, Mo., in 1904. Amount coined in 1902, \$75,080; in 1903, \$175,178. Total coinage, \$250,258.

Authorized by act of April 13, 1904. Weight, 25.8 grains; fineness, 900. These gold dollars sold for \$2 each, and were coined for the Lewis and Clark Exposition, held at Portland, Ore. Amount coined in 1904, \$25,028; in 1905, \$35,041. Total coinage, \$60,069.

Counterfeit Silver Coin

STANDARD DOLLARS.

Authorized to be coined by Act of April 2, 1792. Weight of standard silver dollar, 412½ grains, 900 fine, first coined in 1794. Number of old dollars were counterfeited, composition generally being of German silver and brass, and heavily plated; milling and reeding poor.

Bland or standard silver dollar first coined in 1878; fineness, 900; weight in grains, 412½. All dates of this coin extensively counterfeited; composition generally used being lead, pewter, type metal and iron. Made in a mold, and over 100 grains lighter than genuine; readily detected owing to slippery feeling.

A number of very dangerous counterfeits of this coin have been seen recently, which were nearly full weight, averaging from 380 to 410 grains. Composed of antimony and lead, former metal predominating, heavily silver plated. Made in mold; fine general appearance, almost perfect imitation of genuine. The dates of this coin range from 1878 to present time. When coin becomes worn by use, base metal shows beneath plating. Ring trifle imperfect. We warn our patrons against this dangerous counterfeit.

HALF DOLLARS.

Authorized to be coined by Act of April 2, 1792. Weight of genuine half dollar of present issue, 192.9 grains; fineness, 900. Weight prior to 1837 was 208 grains; from 1837 to 1853, 206.25 grains; legal tender for ten dollars. Old issues were extensively counterfeited; composition generally used was German silver and brass, heavily plated; had fair appearance. Of the late issue the country has been flooded with counterfeits of various dates. The most dangerous of these have following dates: 1841, 1842, 1843, 1845, 1849, 1857, 1860, 1861, 1871, 1872, 1875, 1876, 1877, 1892, 1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900. These coins are struck from dies, and made from molds. Metals used are brass, lead, pewter and type metal. Most of these coins are lighter than genuine, and have sharp keen ring, as if containing glass; 1841, 1842, 1872, 1876, 1877 are nearly full weight and size, the last mentioned being a trifle thicker than genuine, and composed largely of brass. Have a very fine appearance, but can be readily detected by milling and reeding, and defective lettering of word "Liberty" on shield of Goddess of Liberty.

In counterfeits of 1894, 1895, 1896, 1897 and 1899, weight, ring and color are equal to genuine, being made of silver. On back shield on breast of eagle imperfect, also words "E Pluribus Unum," letters being irregular, some very indistinct.

The counterfeit of 1898 has the weight, diameter and thickness of genuine coin. Last syllable in "Pluribus" and final "in" in "Unum" on reverse of coin imperfect. Two dies have been used in stamping the reverse side of these coins, which is proven by examining the position of the stars. On some the star touches the last letter "S" in the word "States," while on others it is some distance from it. On the obverse of coin there appears a dot at the top end of the "i" in date "1898," and the nose of figure has flat appearance. Also the figures in "1898" irregular in one die.

QUARTER DOLLARS.

Authorized to be coined by Act of April 2, 1792. Weight of genuine quarter dollar of present issue is 96.45 grains; fineness 900. Prior to 1837 was 104 grains; from 1837 to 1853, 103.125 grains; legal tender for ten dollars. This coin has been very extensively counterfeited of various dates, the most dangerous of which are 1853, 1854, 1855, 1857, 1858, 1860, 1861, 1892, 1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900. Metals generally used, brass, tin, pewter and lead. Made in mold, well plated, calculated to deceive. Reeding and milling usually poor; obverse and reverse not perfect. Counterfeits of this denomination of later date are very inferior, having greasy and slippery feeling, easily detected by any person accustomed to handling money. The counterfeits of 1895 and 1898 have the weight, diameter, thickness and ring of the genuine coin, being made of silver. The most noticeable defect is the words "In God We Trust," on obverse of coin, which on the counterfeit touches the milling of the coin, while on the genuine it does not. On the reverse the "Q" and "R" in "Quarter" are imperfect, and the stars over the eagle are imperfect. The reeding on the outer edge of coin is very well done on these counterfeits.

TWENTY CENTS.

Authorized to be coined by Act of March 3, 1875. Coinage discontinued by Act of May 2, 1878. Weight of genuine twenty-cent piece, 77.16; fineness, 900; legal tender for five dollars. Few counterfeits in circulation; very poor and easily detected.

DIMES.

Authorized to be coined by Act of April 2, 1792. Weight of genuine dime, 38.58 grains; fineness, 900. Weight prior to 1837, 41.7 grains; from 1837 to 1854, 41.25 grains. Legal tender for ten dollars. Counterfeits very numerous. Metals used, brass, pewter and lead. General appearance very poor.

HALF DIMES.

Authorized to be coined by Act of April 2, 1792. Weight of genuine half dime, 19.29 grains; fineness, 900; weight prior to 1837, 20.8 grains; from 1837 to 1853, 20.625 grains; legal tender for five dollars. A few counterfeits of these old dates, exceedingly poor and readily detected.

THREE CENTS.

Authorized to be coined by Act of March 3, 1851. Coinage discontinued by Act of Feb. 12, 1873. Weight of genuine three-cent piece, 11.52 grains; fineness, 900. Legal tender for five dollars. A number of counterfeits of this coin have been seen, fair imitation of genuine, well plated, calculated to deceive.

Silver coins of smaller denominations than \$1, if not mutilated, so as to be unfit for circulation, may be presented in sums of \$20 or any multiple thereof, to the Treasurer, or any Assistant Treasurer of the United States for redemption in lawful money.

Refuse mutilated Silver and Minor Coins, as there is no provision for their redemption.

FIVE CENTS—NICKEL.

Authorized to be coined by Act of May 16, 1866. This coin has been extensively counterfeited, particularly date of 1875; dangerous counterfeit. Struck from a die, and made of same metal as used by mint. Lettering in words "United States" imperfect, also stars surrounding figure "5." Other counterfeits are very poor, composed of lead and pewter, and made in mold.

THREE CENTS—NICKEL.

Numerous counterfeits of this coin circulated. Made in mold, very poor, easily detected.

CENT—COPPER-NICKEL AND BRONZE.

These coins have been counterfeited to small extent, principally to fill cabinets of numismatics, particularly old dates. Good counterfeits of 1884, 1888, 1892, 1896 and 1897 in circulation. Genuine cent is 90 per cent. copper and 10 per cent. zinc and tin, while counterfeit is all copper, hence darker bronze than genuine.

N. B.—When there is an intermediate degree of fineness, a short calculation is necessary. For every one-thousandth, add 2.07 cents per ounce for gold. Thus, one ounce of gold at 992 fine—\$20.50.6.

The following is a test for determining whether a coin is good or bad. Use liquids as near edge of suspected coin as possible, as that is part most worn. A drop of preparation will have no effect on genuine coin, while it can be plainly seen on the counterfeit. Heavily plated coins should be seraped slightly before using.

TEST FOR GOLD.

Strong Nitric Acid, 6½ drachms.
Muriatic Acid, ¼ drachm, or 15 drops.
Water, 5 drachms.

TEST FOR SILVER.

24 grains Nitrate of Silver.
30 drops Nitric Acid.
1 ounce Water.

The above tests should conform with Diameter, Thickness and Weight, tests used at Mint.

CANADIAN CURRENCY

The system of paper money of Canada is similar to that of the United States, consisting of Dominion of Canada notes, which now amount to \$60,000,000, while the note circulation of the different banks amount to about \$75,000,000, the whole volume being subject to contraction or expansion, as circumstances may warrant.

PROVINCE OF CANADA—Bills: \$1, \$2, \$5, \$10, \$20, \$50, \$100, \$500, \$1,000—recalled from circulation.

DOMINION OF CANADA—Scrip, 25 cents. Bills: \$1, \$2, \$4, \$50, \$100, \$500, \$1,000, \$5,000.

DOMINION OF CANADA—\$5.00, \$10.00, \$20.00—retiring.

Some issues of "Dominion of Canada" Bills are printed on the back "Payable at Toronto, Montreal, St. John, Halifax, Winnipeg, Charlottetown, or Victoria," but later issues have engraved, through the center of the green or brown printed design on the back, the words "DOMINION OF CANADA," and are redeemed by any of the Assistant Receivers-General throughout the Dominion.

Newfoundland is not in the Dominion of Canada, but all other Bills of Banks in the Dominion are now received at par in all portions of the Dominion, but subject to a discount by Brokers in the United States, the highest rates prevailing in the winter months and at points most distant from place of issue or redemption.

THE NATIONAL COUNTERFEIT DETECTOR, on the following page, gives a list of Parent Banks in business in the Dominion of Canada for the protection of all its subscribers from doubtful, broken and worthless institutions, which previously existed in the Provinces, their bills being still in circulation and used by dishonest persons. These parent banks have branches in other sections of Canada, and bills of smaller denominations than fives were formerly issued.

Banks Merged Into Other Banks

Bank of British Columbia, merged with Canadian Bank of Commerce.

Commercial Bank of Canada, merged into the Merchants' Bank of Canada, Montreal. Bills of the former redeemed by the latter.

Commercial Bank of Windsor, Windsor, N. S., merged with Union Bank of Halifax, N. S.

Crown Bank of Toronto, Ont., merged with the Northern Bank, Winnipeg, Man., under name of Northern Crown Bank.

Core Bank of Niagara, Hamilton, Ont., merged into the Canadian Bank of Commerce, Toronto, Ont. Bills of the former redeemed by the latter.

Closed Banks—Bills Worthless

- Agricultural Bank of Upper Canada, Toronto, Ont.
- Bank of Arcadia, Liverpool, N. S.
- Bank of Brantford, Brantford, Ont.
- Bank of Canada, Montreal, P. Q.
- Bank of Clifton, Clifton, Ont.
- Bank of Liverpool, Liverpool, N. S.
- Bank of London in Canada, London, Ont. Bank suspended in 1887, wound up 1893.
- Bank of Prince Edward Island, Charlottetown, P. E. I. Final closing up April 28, 1887, and final dividend paid; hence any bills now outstanding are worthless.
- Bank of the People, Toronto, Ont., organized about 1835, under the Scotch banking system, by Sir Francis Hincks and Charles Beatty, of Toronto, withdrew from business in a few years, but redeemed all its outstanding notes. The bill plates were deposited with the Bank of Montreal, Montreal, P. Q.
- Bank of Upper Canada, Toronto, Ont. The bank was in the hands of the Canadian Government as Receiver. The affairs of the bank are wound up, but the billholders can yet get 90 per cent. from the Deputy Minister of Finance at Ottawa.
- Bank of Western Canada, Clifton, Ont. Bank unknown, but bills worthless.
- British-Canadian Bank, Toronto, Ont. Bank never in operation.
- Central Bank of Canada, Toronto, Ont. Suspended in 1887. Bills now worthless.
- Central Bank of New Brunswick, Fredericton, N. B. The bills of the Central Bank are worthless, for the time of redemption expired in January, 1882.
- Charlotte County Bank, St. Andrews, N. B.
- City Bank Montreal, Montreal, P. Q., merged into the Consolidated Bank of Canada, Montreal, P. Q.
- Colonial Bank of Canada, Toronto, Ont.
- Commercial Bank of New Brunswick, St. John, N. B.
- Commercial Bank of Newfoundland, St. Johns, Newfoundland.
- Consolidated Bank of Canada, Montreal, P. Q. Bills were redeemed at par in Montreal, until during year 1890, but all tens were worthless, having been stolen unsigned, and signatures forged. Since then all bills are worthless.
- Exchange Bank of Canada, Montreal, P. Q. Suspended Sept. 17, 1883. Bills were redeemed at par, but any now outstanding are worthless.
- Farmer's Bank of Rustico, Rustico, P. E. I. Went into voluntary liquidation in 1895-6, and bills redeemed up to year 1900.
- Farmer's Joint Stock Banking Co., Toronto, Ont.
- Federal Bank of Canada, Toronto, Ont. The bills were redeemed at par for about five years, but bank was wound up and bills became worthless in 1893. Some \$10,000 were supposed to be thus left outstanding.
- International Bank of Canada, Toronto, Ont.
- Maritime Bank of the Dominion of Canada, St. John, N. B. Bills were redeemed at par, but bank wound up and bills became worthless in 1893.
- Mechanics' Bank, Montreal, P. Q.
- Metropolitan Bank, Montreal, P. Q., went into liquidation about 1876 and redeemed all of its outstanding notes that were presented before the final closing up of the bank's business. In no way connected with the Metropolitan Bank, Toronto, Ont., organized in 1902.
- Pictou Bank, Pictou, N. S. Bank closed, bills worthless.
- Provincial Bank of Canada, Stanstead, P. Q., early established under the Free Bank Act, withdrew from business January, 1864, its notes being redeemed and the securities returned by Government.
- Royal Canadian Bank, Montreal, P. Q., merged into the Consolidated Bank of Canada, Montreal, P. Q.
- Stadacona Bank, Quebec, P. Q. Bills of this bank were redeemed at par until August 1, 1890. Since then bills outstanding are worthless.
- Union Bank of Montreal, Montreal, Que. Bank unknown, but bills worthless.
- Union Bank of Newfoundland, St. Johns, Newfoundland.
- Westmoreland Bank of New Brunswick, Moncton, N. B.
- Zimmerman's Bank, Elgin, Ontario, established in 1854 under the Free Bank Act, became the Chartered Bank of Clifton by Act of Parliament in 1858. The notes of the Zimmerman Bank were redeemed and securities returned by Government.

Counterfeit Canadian Bills

ONES

DOMINION OF CANADA.

1. Portrait of Jacques Cartier, old issue, dated Ottawa, July 1, 1870. Check Letter D. Red numbers. "Payable at Toronto" on back. Upper left end of note not good; white streak extends from ear to chin on side of face which is not found in genuine. Lathe work around 1, right of note, irregular; lines cannot be traced. There are three issues of these counterfeit bills, the difference being principally in the size of the red figures.
1. Portrait of Lady Dufferin. Letter A. "Payable at Montreal." Dated 1st June, 1878. Very poor counterfeit on very soft paper and some numbers in green. Another issue of the counterfeit is on stiff white paper. Portrait and all lathe work very coarse work.
1. Lady Dufferin portrait. Letter A or C. "Payable at Montreal." Date, 1st June, 1878. Another large lot of similar counterfeits to the last above appeared in May, 1899. Paper like the softest kid. Genuine portrait has her right shoulder shaded or dark, but left shoulder is very light. Counterfeit has both shoulders equally shaded and very dark. Letters C and A are confusing. The A (black ink) is just under, and the C (black ink also) is just ahead of, the blue number.
1. Portraits—Aberdeen and wife. Series A. Letters A, B. Dated Ottawa, March 31, 1898. Engraving poor. Lathe work, shading lines about Ottawa and date, and other fine work, very bad. "For Minister of Finance" omitted.
1. Aberdeen issue. Series B. Letter C. Dated Ottawa, March 31, 1898. Light brown ink design about bottom face of note. Photo-mechanical on good paper, and all colors good. Quality of engraved work poor; it is dark, coarse and blotchy, especially in log-rolling scene and in lathe work around large counters "1." Word "Series" hardly legible. Some fine shading lines are solid black. Back better work than face, green ink too light.

BANK OF BRITISH NORTH AMERICA, St. John, N. B.

1. Lithograph, old. "New Brunswick" across end of bill.

BANK OF MONTREAL, Montreal, P. Q.

1. Old. Right upper corner, 1 on ships under full sail. Left upper corner, two Indians and shield.

BANK OF TORONTO, Toronto, Ont.

1. Vignette: Lumberman, axe and log.

UNION BANK OF PRINCE EDWARD ISLAND, Charlottetown, P. E. I.

1. Dated 1st January, 1872. Photograph poorly done. No. 30252. Green letters in ONE, and red letters in "Canada Currency" badly printed or painted.
None of the above banks now issue \$1 bills.

TWOS

DOMINION OF CANADA.

2. Portrait of Lord Dufferin. Check letter B. Blue numbers. "Payable at Montreal." Dated June 1st, 1878. Very dangerous. Both face and back of note good. Portrait of Lord Dufferin good, though forehead appears a little too broad or full. Paper fair, but a little harsh and yellowish. Color of blue numbers excellent. On face of bill lathe work in large green figures 2 is poor, and in lower half of each of these figures 2 there are on genuine bill four upright zigzag lines, formed by the peculiar shape or joining of fine lathe work lines, but on counterfeit notes these four engraved zigzag lines are very prominent, and the two centre ones do not touch one another as on genuine. In imprint, "British American Bank Note Co., Montreal," dots over "i's" omitted. Final e in word "Finance" in small print "For Minister of Finance" is larger than other letters.
2. Dufferin issue. Letter C. Red numbers. Payable at Toronto. Dated June 1st, 1878, which date in some cases has been changed. *Some defects in zigzag lines as mentioned in above paragraph.* Dangerous, excepting poor centre vignette of Lord Dufferin, and imitation lathe work in large green 2's. Most all the other work is about as good as some genuine. When vignette of Lord Dufferin is worn this note is very dangerous. Paper fair, but in some cases very good. Color of red numbers on some of these notes is very bad and on others quite fair.
2. Lansdowne issue. Letter B. Dated Ottawa, July 2d, 1887. Has a blurred and indistinct appearance, and green design in centre is off color. Figures used in numbers are only half the size of genuine and printed in purple ink. Under title "Dominion of Canada" the words "Will pay" are very poorly engraved. To the left and under word "Ottawa" (in date line) printed word "Countersigned" over signature is omitted in counterfeit. Words "For Minister of Finance," under signature of J. M. Courtney, are also omitted.
2. Portrait of King Edward. Letter A. Dated Ottawa, July 2d, 1897. Portrait, center vignette and lathe work very poor. Red number too light; lettering fair. Back of note poor. Paper fair.
2. Portrait of King Edward. Letter C. Dated Ottawa, July 2d, 1897. Appears photo-engraved, but poorly done, especially colors. Lathe work is all poor, especially around border and large counter "2" on right end face of note. Shading lines of "Dominion of Canada" are very heavy and poor, also parallel ruling in sky. Paper fair and portrait fair. On back of note words "American Bank Note Company, Ottawa," poorly printed.
2. Portrait of King Edward. Letter D. Dated Ottawa, July 2d, 1897. Poor. Portrait a poor likeness and of very coarse work, especially shading lines on face and forehead and in background. All fine shading lines on note coarse, and lathe work poor. Note has not as good work on it as on a previous issue of letter C, but has better colored black and chocolate inks. Paper thick.

BANK OF MONTREAL, Montreal, Quebec.

2. Vignette: View of Niagara Falls, railcars and bridge.
2. Ottawa Branch. Dated March 1, 1852. Coarse engraving. "Ottawa" in red.

BANK OF TORONTO, Toronto, Ont.

2. Vignette: Shield, Lion and Unicorn.

TWOS—Continued

QUEBEC BANK, Quebec, P. Q.

2. Toronto, Ont., Branch. Old issue, dated 1860.

UNION BANK OF PRINCE EDWARD ISLAND, Charlottetown, P. E. I.

2. Plate A, dated 1st Jan'y, 1872, and numbered differently in blue or green ink. Photo. Large letters in TWO, green or blue inks badly printed or painted; also red letters in "Canada Currency."
2. Letter A. Dated March 1st, 1875. Coarse engraving, similar to an inferior woodcut. Fully one-quarter inch shorter than genuine. "British-American Bank Note Co., Montreal," omitted. Line "Dominion of Canada," over vignette-engraving of dog and safe, is without any shading.

None of the above banks now issue \$2 bills.

FOURS

BANK OF BRITISH NORTH AMERICA.

4. St. John Branch, N. B. Old issue. Photograph, and very pale.

CITY BANK MONTREAL, Montreal, P. Q.

4. Poor counterfeit. Paper poor; inks and lathe work very defective. Bank not in existence.

DOMINION BANK, Toronto, Ont.

4. Old issue. Dated Feb. 1st, 1871. Letter B. There is a white line around the hair portion of Prince Arthur's head, which serves to separate it from background. Cashier's signature, W. H. Holland, Jr., is engraved, while on genuine it is written. Lathe work very irregular.

BANK OF UPPER CANADA, Toronto, Ont.

4. Alterations from notes of failed Bank of Western Canada, Clifton. Words "Western" and "Clifton" are erased, and words "Upper" and "Toronto" substituted. This is done by means of acid, also by pasting.

THE BANK OF TORONTO, Toronto, Ont.

4. Alterations from notes of the failed Colonial Bank of Toronto. Words "Colonial Bank of Canada" are erased and words "Bank of Toronto" substituted.

These are one-dollar notes raised to four by pen and ink additions and changes; are also recolored.

FIVES

BANK OF BRITISH NORTH AMERICA, Montreal, P. Q.

5. Quebec Branch. Very old issue. Dated 22nd Nov., 1871. Check Letter A. Photograph very pale. Very badly printed, especially the green ink.
5. Kingston Branch. Old issue. Dated May 1, 1875. In border of genuine the lines of shading on scrollwork are fine and clear; on counterfeit the shading is omitted. Genuine notes of this issue are numbered from 30001 to 36000 inclusive; counterfeits bear other numbers than those on genuine of this date. Lathe work fair. Very few genuine notes of this date and issue in circulation.
5. Old issue. Letter D. Genuine are dated 3d July, 1877. On counterfeit the date of month is omitted. Imprint of British-American Bank Note Company, Montreal, upper left, border of note, poorly engraved; vignettes badly done. On lower left end Britannia seated has her right hand resting upon shield, the lower rim of which is well defined by a clear *white* line which does not appear on genuine bill. Another counterfeit of this note has appeared, dated 5th July, 1877.

BANK OF MONTREAL, Montreal, Quebec.

5. Old issue. Dated 1858, Sept. 1, and bears in centre TWENTY-FIVE SHILLINGS CY in a large panel; FIVE DOLLARS in lower left of note in a small panel. Date of issue and numbers printed in blue. In upper right and upper left are two small vignettes. Quebec (spelled Quebeck) appears on this counterfeit in three places in blue ink. *There is also a counterfeit on the Ottawa branch, the only difference being the date of issue, and numbers, also Ottawa, are printed in red.* Refuse all bills of this kind.
5. Old counterfeit. Vignette in upper right corner, steamer; left end, cattle.
5. Dated Jan. 2, 1895. Series C and D. Fair wood-cut, but quality of work will not bear close inspection. Lettering and numbering poor. Series C countersigned by N. McLean, D by J. A. Paddon.
5. Fair. Dated January 2, 1895. Portraits of Rt. Hon. Lord Strathcona and Mount Royal, also E. C. Clouston, General Manager, not as lifelike as genuine and poorly engraved. The "V" in centre, also panel lower face of note containing signatures, is a light brown; on genuine they are pale green. Back of note poor. Paper fair quality.
5. Fair. Dated Jan. 2, 1904. Series A. Portraits of Sir Edward Clouston and Sir Edward Drummond are coarse and appear to be sketches of original. Whole bill probably sketch from which a plate was made. Paper thick. General appearance of bill attracts attention. On careful examination, fine lines over heads and faces of portraits appear different, being few and continuous. Lines on coats coarse and roughly cross-lined. Lathe work coarse. Red numbers fair.

BANK OF NOVA SCOTIA, Halifax, N. S.

5. Dated Halifax, July 5, 1877. Letter B. Very rough pen and brush work.

BANK OF TORONTO, Toronto, Ont.

5. Port Hope (Branch) issue. Photo. Letter E. Dated July 1st, 1880. Color is a purple-brown. Green FIVE across lower centre face of bill is painted over with a green water-color. Numbers are painted in red water-color, and letters in PORT HOPE painted in blue ink.
5. Petersburg (Branch). Photo. Only a few of these notes were made; numbers on all 29356. Easily detected on account of their brownish tint.

CANADIAN BANK OF COMMERCE, Toronto, Ont.

5. Old issue. Letter C. Dated May 1st, 1871. Signature of E. J. Smith. Cashier, is heavily printed; on genuine it is written. In oval portrait in centre the Queen's face is turned more to the front than in genuine. Engraving of portrait coarse.

DOMINION BANK, Toronto, Ont.

- 5. Dated 2d Jan., 1900. Letter B. Poor, especially face. Lathe work badly broken. Paper fair.
- 5. Dated Toronto, 2d January, 1900. Poor woodcut production, very crude.
- 5. Dated 2d Jan., 1900. Letter C. Photographic. Poor counterfeit.

FARMERS BANK OF CANADA, Toronto, Ont.

- 5. Check letter C; dated Jan. 2d, 1907; signed W. Seeltie Nesbitt, President, and countersigned T. H. Weir, pro Gen'l Manager. Poor woodcut. Lathe work, front and back, very poor, cannot be traced; numbering very poor; vignette of farm scene on front coarse and scratchy. Imprint of British-American Bank Note Co., Ottawa, bottom of note, hardly legible. Green background on face too light and very poorly printed. Back poorly executed and too dark a green.

LA BANQUE DU PEUPLE, Montreal.

- 5. Pen and ink. Letter A. Portraits very poor. Lathe work surrounding the 5 very poor.

MARITIME BANK OF ST. JOHN, N. B.

- 5. Photo. Letter B. Poor counterfeit. Photographic pen and ink process.

MOLSONS BANK, Montreal, Que.

- 5. Dated Montreal, 2d July, 1901. Check letter A. Poor woodcut. Numbering, lathe work and vignettes poor. Large green 5 and green V on each side of large 5, center of note, coarse and too dark. Signed Wm. Macpherson, President, and countersigned H. R. Jeffrey, pro Gen. Mgr.
- 5. Dated Montreal, July 2, 1901. Check letter B. Signed Wm. M. Macpherson, President, and Elliott, pro Gen. Mgr; also Jeffray, pro Gen. Mgr. Other counterfeits will likely appear, bearing other signatures for pro General Manager. A second issue, bearing Check Letter C, has also appeared.

QUEBEC BANK, Quebec, P. Q.

- 5. Dated 2d July, 1901. Letter H. Blue numbers. Poor. Work on face especially poor.

TRADERS BANK OF CANADA, Toronto, Ont.

- 5. Dated July 2d, 1897. Letter D. Like a photographic production, dull gray in color. Numbers should be in blue; those seen are traced over in red ink.
- 5. Dated Toronto, 2d July, 1897. Check Letter D. Signed C. D. Warren, President, and W. G. Fryans, pro Gen. Mgr. Poor photo-mechanical. Vignette portraits of President and Gen. Manager coarse work, but fair likenesses. Vignette of farm-yard scene in centre scratchy and blurred. Lathe work in counters very poor, also blue numbers. Large green V near each end of note too dark a green, and fine work in body of V cannot be traced. Back poor; lathe work all blurred and color of green too dark. Imprint of British-American Bank Note Co., Montreal, bottom on back, can hardly be deciphered.

UNION BANK OF PRINCE EDWARD ISLAND, Charlottetown, P. E. I.

- 5. Photograph, poorly done. Plate A. Easily detected by faded appearance.

TENS

BANK OF BRITISH NORTH AMERICA, Montreal, P. Q.

- 10. Ottawa Branch, Ottawa, Ont. Photograph, and very poor.

BANK OF MONTREAL, Montreal, P. Q.

- 10. Dated January 2, 1882. Letter D. Very poor. Face and back same design.

BANK OF TORONTO, Toronto, Ont.

- 10. Dated Toronto, 1st June, 1892. Letter D. General appearance, yellow face and red numbers, all colors and paper good. On close inspection Coat of Arms in center of crude finish, lathe work in counters flat and broken. Large letter of "Bank of Toronto" have no line work about them—only solid work. In lower center margin "American Bank Note Co., Ottawa," omitted. Back of note has no linework. Bill a very fine pen or pencil and brush work job, black ink and all colors can be removed by damp sponge.

CANADIAN BANK OF COMMERCE, Toronto, Ont.

- 10. Dated May 1st, 1871. Letter D. Very dangerous. Signed Wm. McMaster, President, and W. Cooke, Cashier. Color of blue numbers a trifle lighter than genuine. Vignette in centre coarser than genuine, particularly head of lion. In counterfeit the bases of letter A in "Dollars" are connected in one line, while in genuine there is a distinct opening. The staff or perpendicular line of letter P in "President" in counterfeit extends below line upon which "President" is written; in genuine it terminates directly on the line. There are five shaded lines under "Ten Dollars" in counterfeit, and only four in genuine. Shading of the title, Bank of Commerce, coarse and scratchy; lathe work excellent, but slightly defective. Back of note, color of green ink lighter than genuine, and lathe work defective. Paper is thinner than genuine.

CITY BANK MONTREAL, Montreal, P. Q.

- 10. Poor. On counterfeit the word "Parliament" is printed "Parliment."

DOMINION BANK, Toronto, Ont.

- 10. Check Letters A and B. Photo. Easily detected by poor coloring and omission of fine lettering at bottom over which signatures are written. Watermark, "Dominion Bank," is very faint, and green is almost a blue. Attempt to imitate color tints on back of note is very crude.

FARMERS BANK OF CANADA, Toronto, Ont.

- 10. Dated Jan. 2, 1907. Check letter A. Lathe work, vignette and numbering very poorly done. W. Seeltie Nesbitt, President; countersigned T. H. Weir, pro Genl. Manager.

IMPERIAL BANK, Toronto, Ont.

- 10. Dated Toronto, Ont., March 1, 1875. Letter B. Poor counterfeit. Portraits and lathe work in counters very poor. Back of note fair, but lathe work poor. Paper smooth and stiff.

LA BANQUE NATIONALE, Quebec, P. Q.

- 10. Dated April 28, 1860. Check letter A. Vignettes all coarsely done, as are the large 10's and the counters in both upper corners. Lettering is much better and deceptive. "P" in "President" directly over "D" in "DIX" on genuine, bottom border. Counterfeit, "P" is over the "IX."

MARITIME BANK, St. John, N. B.

- 10. Dated Oct. 5, 1881. Check letter A. Photographic pen and ink counterfeit. General appearance of this note is extremely poor and readily detected. Bank failed. Notes worthless.

TENS—Continued

MERCHANTS' BANK OF CANADA, Montreal, P. Q.

10. Photo. Letter D. Green tint on face and back is rubbed on over purple photographic tint with an oil green crayon pencil, which gives the green a yellowish blue and the work a blurred appearance. Very few notes printed.

MERCHANTS' BANK OF HALIFAX, Halifax, N. S.

10. Dated 1st Jan., 1874. Photograph and lithograph combined. Purplish tint in the photographic part, the 10—TEN—10 being done in red and green ink by lithography, and badly blurred. Vignette of ship under sail is very coarse, while in genuine it is very distinct.
10. Old issue. Dated 1st Jan., 1874. Engraved and lithographed, having blurred and dark look. "Cash'r," "Pres't" and name of printers, "Blades, East & Blandes, London," are all omitted.

MOLSONS BANK, Montreal, Que.

10. Date, Jan. 2, 1900. Letter B. Very poor photo. Has blurred appearance and is on heavy paper.

ONTARIO BANK, Toronto, Ont.

10. Letter A. Dated Bowmanville, Nov. 1st, 1870. Foliage in engraving of woodsman chopping down tree is indistinctly worked up, being rather blurred in its details. There are two issues of these counterfeits on some of which the imprint of the "British-American Bank Note Company, Montreal and Ottawa," does not appear.

10. Check letter A. A very poor photograph. No description necessary.

PEOPLE'S BANK OF NEW BRUNSWICK, Fredericton, N. B.

10. Photograph, poorly done. Plate A. Detected by its faded appearance.

QUEBEC BANK, Quebec, P. Q.

10. Dated Jan. 3, 1898. Letter C. Signed John Breakey, Pres.; countersigned V. F. Convey. Photo. Centre face of note, vignette "City of Quebec" badly blurred, but by careful printing might be improved. Figures in number of note in red are slightly thicker and longer than those on the genuine. Back nearly black instead of blue. Lathe work and paper fair.

STANDARD BANK OF CANADA, Toronto, Ont.

10. Dated Toronto 1st May, 1900. Check letter A. Very poor woodcut. Poor quality of paper. Numbering brick red and very poor. Lathe work in counters poorly done. Vignette portrait on right end exceedingly poor. Lettering of Canada Bank Note Printing Co., lower centre of note, broken and indistinct, also imprint of British-American Bank Note Co., Montreal, in lower border. Back has no semblance of lathe work.

- 10 raised from 1. Government issue. Vignette—Lady Dufferin. Note scraped with a knife and alterations of figures and large characters are done with pen and ink. Border and other parts of note made indistinct by ink lines scattered over. No genuine \$10 Dominion notes.

- 10 raised from 5. Many raised bills have been found in circulation. The altered parts are done by the "bugging" process, which shows very plainly upon holding the bill up to the light.

TWENTIES

EASTERN TOWNSHIPS BANK, Sherbrooke, P. Q.

20. Dated Jan. 2, 1903. Very dull, faded color; but few issued.

SILVER COUNTERFEITS

The 20, 25 and 50 cent Canada silver pieces have been extensively counterfeited.

ENGLISH BANK NOTES AND COINS

- £5 English Bank Notes, dated London, 1862, and Sept. 13, 1901.
- £5 Bank of England Note, dated January 4, 1898. Photographie pen and ink.
- £10 Bank of England Notes, dated Sept. 21, 1901.
- £20 Bank of England Notes, dated Birmingham, May 20, 1890, marked with blue stamp, "London and County Banking Co., Limited, Stratford."
- £20 Bank of England Note, dated May 20, 1893. Pen and ink production.
- £20 Bank of England Note, dated Jan. 15, 1896. The notes present a gray, dirty and greasy appearance, which has evidently been caused by inserting the water mark by an oily process. The cipher number of these bills is M—8, the consecutive numbers differing.
- £50 English Bank Notes, dated London, May 16, 1883, marked with blue stamp, "London and County Banking Co., Limited, Brompton, 26—0."
- £50 Bank of England Note, dated London, May 16, 1883, stamped in red letters across lower part of note, "Channel Island Bank, Limited, Jersey."
- £50 Bank of England Notes, dated March 6, 1901.
- £100 English Bank Notes, dated London, August 16, 1883.
- £500 English Bank Notes, dated London, August 16, 1883.
- £5 and £10 Provincial Bank of Ireland, each dated November 10, 1880.

The paper of these counterfeits is thicker and darker than that of the genuine.

ENGLISH SOVEREIGN.—A dangerous counterfeit; weight of genuine coin, 123.27 grains; fineness, 916 2-3. Weight and thickness same as genuine. Composed of platinum, heavily gold-plated. As coins become worn, platinum can be observed distinctly. General appearance good, and liable to deceive. The dates are 1862, 1863 and 1872.

ENGLISH HALF-SOVEREIGN, composed of same metal as sovereign above reported, is in circulation.

Fac-simile of Discount Glass

Fac-Simile of Discount Glass Used at the National Bank Redemption Agency for Discounting National Bank Notes, and by the U. S. Treasurer for Discounting U. S. Notes, Gold and Silver Certificates.

U. S. Treasury Notes, also Gold and Silver Certificates, are about $\frac{3}{4}$ inch longer than National Bank Notes. A calculation, however, can be made from this Scale.

All Notes equalling or exceeding three-fifths of their original proportions, and bearing the name of the bank and the signature of one of its officers, are redeemable at their face value. Mutilated, U. S. Notes, Gold Certificates and Silver Certificates are redeemable at their face value by the U. S. Treasurer and Assistant Treasurers, when not more than two-fifths of the note is missing. When mutilated so that less than three-fifths, but clearly more than two-fifths, of the original proportions remain, are redeemable by the Treasurer only, at one-half the face value of the whole note or certificate; unless when accompanied by an affidavit that the missing portions are totally destroyed, and then all fragments are redeemable at full face value.
